Thread: [.htaccess - GET Rewriting?](#)

Skidy - June 13, 2017, 8:23 am

Attempted and failed at this.

I am trying to get: example.com/?from=STRAT&to=EUR&amount=3

To

example.com/STRAT/EUR/3

How an earth can I do this? Is this the wrong sub-forum?

What I have so far:

Code RewriteEngine on

```
RewriteCond %{REQUEST_FILENAME} !-f
RewriteCond %{REQUEST_FILENAME} !-d
RewriteRule ^([^\./]+)$ index.php?from=$1 [L]
```

```
RewriteCond %{REQUEST_FILENAME} !-f
RewriteCond %{REQUEST_FILENAME} !-d
RewriteRule ^([^\./]+)/([^\./]+)$ index.php?from=$1&to=$2&amount=$3 [L]
```

newQuery - June 13, 2017, 11:43 am

Try this one:

Code `^([^\./]+)/([^\./]+)/([^\./]+)+$`

Code RewriteEngine On

```
RewriteRule ^([^\./]+)/([^\./]+)/([^\./]+) /index.php?from=$1&to=$2&amount=$3 [L]
```

<https://cryptoing.net/1/1/test>

It doesn't recognise my GETS now.

This works for me: <https://cryptoing.net/STRAT/EUR/3>

Yeah I just fixed it all.

Thank you for your help.
