BEFORE YOU READ THE REVIEW

Spoiler [\(Click to View\)](#)

-You must understand that the reviews I make are from my point of view.If I grade 3/10 that doesn't mean the method itself is bad, maybe for other people that method is 7, so keep this in mind when you're reading my reviews.

-My reviews will probably piss off many people and break some of their businesses ...or raise them.This means I will not debate with the sellers whether or not my reviews are accurate.Unless there is really something wrong I won't recheck my analysis.

-I review good and bad products, not only bad products as some of you may suspect.In the end, remains the decision of the reader if it's bad or good.

FAQ

Who am I?Spoiler [\(Click to View\)](#)

-A random guy that bought dozens of methods in the past few months from HackForums Sellers, and with disappointment, I announce that 90% don't work or they require insane hard work to even get them started. Highly "vouched" methods, with "valid proofs" from so highly upper-class "highly vouched members/old members" or how you want to call them, methods that look good on paper but on practice leave you with a sour taste in your mouth and with dust in your wallet.

-For those that keep asking me, "who I am and how I buy for months but my account is only for a week". I've been on hackforums for awhile now, my first account was around 2009 but was disabled due to inactivity. I kept coming back.Never engaged in topics too much.Until 1'st May when I decided I should make reviews about products.

What I'm going to show you?Spoiler [\(Click to View\)](#)

Few angles to look at when you're buying a method and few insights of what each method consists of.

I will keep this short and say this - you don't have to become an investigator but in the end is YOUR money and YOUR time you're going to throw at a random guy that promises you the moon.

-Some vouches provide screenshots of Bitcoin Earnings, even though the only way to cashout is through PayPal.

More explained in "About the seller" section.

Vouches such as "Vouch for X, he always has great products!" , "You can't get wrong with X!" , "I vouch for this guy he knows what he's doing!" , "I tested out this product, it works! Great Product!" are not taken into consideration. Vouches without legit-proofs are not taken into consideration. Text-proofs are not taken into consideration. Personal review:

About the product:

Spoiler ([Click to View](#))

0/10

-Requires a verified PayPal, if you have one that's limited this may be a problem.

-Requires an Ebay account. You have to buy a physical item and ship it.

-First method - doesn't really work, it involves re-selling an item for 5\$. The item costs 2~\$ + the shipping fee, which the shipping fee will probably bust your profit and end up on minus .

This can be used both for whitehat and grey, however, greyhat won't work either, because Ebay has a TOS that goes over what the seller advises you to do. Once the buyer initiates a Chargeback every detail will be analyzed by the PayPal Employees.

-You may risk your PayPal and Ebay accounts if you decide to go Greyhat.

-Second method - same story as the first method.

About the seller:

Spoiler ([Click to View](#))

-1/10

- Written fast, doesn't provide much informations,explained vaguely, the seller could've most definitely give more details or update his method with something new considering it was initially released in 2014 and doesn't work.
 - Filled with vouches that post hundreds of dollars proofs, even though I know the method and is nothing like that.
 - Some vouches provide screenshots of Bitcoin Earnings, even thought the only way to cash out is through PayPal.
 - Provides a video proof of people talking about his method, not sure if Fiverr material or his friends.
 - Ignores all the [refund requests](#), [these are just few examples](#).
- The sellers topic can be pinned as of an - EXAMPLE - why you should think twice before buying an Ebook.Has everything in it: 95 pages filled with vouches, some provided by trusted-highly-vouched members, and even videos of people filming themselves talking about how good the method is, almost makes you buy it instantly.
- If any of the 900 vouchers is nice enough to enlighten how they've managed to make hundreds of dollars with these methods.
- This grade reviews his way of advertising, addressing to potential customers and his way of convincing them.

Nice Review :) Thank you ?

CheGuevara? - June 13, 2017, 9:09 am

I just love these kind of reviews, the honest ones.

When you compare his thread and what's said there, to this thread which only contains the truth and nothing but the truth, it's funny.

This is how each review of a copy should be written, sadly that's never going to happen. You're doing a good job.

I'm never going to touch an eBook, never. Sadly I must admit that I have tried some before (very few), but it did not take me much time to figure out what eBooks truly are and the purpose behind them. (If not shared for free as knowledge of course).

Anyways I just wanted to say that you're doing a good job and I hope to see more of you. (I've already seen some of your reviews).

However less and less sellers will probably let you do reviews of their eBooks seeing that you tell nothing but the truth.

Keep it up and have a great day!

Another nice review.

-1 first one i saw on all your threads keep up the good work bud.

DarkHead34 - June 13, 2017, 9:12 am

Awesome review! Waiting for a good one, Looks like almost every money making method here sucks

Reporter - June 13, 2017, 9:14 am

Oh look, Another dropshipping ebook. These always work when you don't spend money on ads

Mr. Reviewer - June 13, 2017, 4:46 pm

I Appreciate the words guys.

Shouldn't be a problem, I'll always buy stuff that I find appealing. The only problem I'm confronting with I started to have a knot in my throat every time I check a sales thread. I immediately lose interest in buying noticing the same patterns of advertising as on products that don't earn you anything, same type of mystery from the sellers regarding their methods, even same vouch style, or profit screens.

I'm glad you're exposing these posers who sell fake info on hf for profit. Maybe people will finally realize that this marketplace is just a scammer's paradise now
