Especially myself for watching them work, and not offering to help! :D

Not that I personally trust online wallets, though.

Good work as usual and nice layout.

A suggestion for something new would be possibly showcasing a member who has had the most returns for the week. Not sure how it could be done other than by users reporting it since it would be a pain in the ass to keep track of.

Mullah420 - June 13, 2017, 3:07 pm

What would you say is gonna moon this week?

Not sure how it could be done other than by users reporting it since it would be a pain in the ass to keep track of. I wanted to do that as well, but then I thought about it. I feel like it could cause a lot of drama in the community – we wouldn't want to promote someone who is a fraud, someone who lied, or someone who is looking to pump a coin. If we showcase a specific member, then some people might follow his footsteps and do whatever said member is doing. He could false-promote a coin and attempt at pumping it, and considering the fact that people remember him being showcased on here, they might follow him and help him pump the coin.

It's a great idea, sadly it is going to be difficult to execute it properly.

I didn't think about that. You're right it won't be a good idea because of that. I have an idea that I might run with that could be included in the news. I'll think about it more. Have a 2 hour drive right now to think.

fayon - June 13, 2017, 3:25 pm
