Thread: [Folder in one of my drives filled with "PAZ" files?](#)

EthanX - June 13, 2017, 5:15 pm

What is this? Found this in my other hard drive that I don't touch much as I only use it to store games as my ssd is too small.

What is this?

daymon - June 13, 2017, 5:18 pm

Its my fileless malware, idk how tf you found it tho.

Spoiler [\(Click to View\)](#)

It's game files. Could be for BDO if you play that.
