The method itself is pretty damn genius to be honest because you'll be able to set this on automation and have it running 24/7.

And yes, you will be able to get 1k adds daily for sure doing this method, you can even get more if you put even more effort and time in it.

Me personally will try it out and update this thread review with a photo after doing it for a few days. Might start doing it tomorrow and we'll see. But yes, the method works 110% and it's worth the money that's for sure.

The method is great, semi-known but not at all saturated and he's gone ahead and made it auto-pilot (Does require investment after a few days, or find other options)

Definitely worth what he's selling it for of you're after account growing for almost any niche, this method does and will get you 1k+ adds easy per day, and like said more if you put more time into it. The way he's written it out has 11 steps in total, fair few of them include pictures for the simple folk. Overall this method will get you 1k+ adds per day, with little time put into it. The investment part is mainly for the autopilot, but can be free. I'd highly recommend this product to anyone looking for fast, mass adds on their Snapchat. Especially for things like E-whoring since this will get you active people.

Method - 9/10. Semi-known, but non saturated so it's perfect.

Autopilot Method - 10/10. Not known, helps a heap and works fine
Write up - 10/10. Simple, straight to the points, includes pictures and links to everything you need.
Time - 10/10. This whole thing requires little time per day to actually do, so it's perfect!
Price - 9/10. Somewhat expensive for those who don't have much but worth it for growing, if you have the cash spare buy it ASAP!
Overall - 10/10. This method is perfect overall for any Snapchat growing needs.

I can the say the method is indeed effective. It can work and Funtela provides the necessary screenshot in his original post with screenshots and tools required. It takes a bit of time to setup and then it can be autopilot once its done. I recommend this to anyone who is looking for followers in snapchat.

The e-book is really simple and even a kid of 8 will understand what to do. The e-book really helped me with getting snapchat traffic. I used it for my E-whore snapchat and the money I spend for this e-book was back in 15 minutes.

Conclusion: A really HQ product from Nutela, definitely worth it!

It's a useful method but it sucks that I knew it already. Hopefully others find it useful though.

Is it a website? An app? Do I have to publish my username everyday? Does it involve sfs? Or ghostcodes?

?uncho - October 26, 2017, 4:43 pm

I have purchased this method not so long ago and have had a little skim through, the methods within look very promising.

Price will go up to \$39.99 by the end of the weekend!

SnapchatKing - November 8, 2017, 5:10 pm

lets start like this, Im always nice to people who are nice back. When people are fake thats the worst thing i ever know.

I bought this ebook at 34,90 as the price already is. And then funtela said " price will go up after the weekend " he even said you will get updates in the futhure for more methods. I thought fine..sounds good. He then said hes releasing new methods that sunday? or whatever it was (two days after i bought the ebook). The day came, no updates. alright then....might be some other day..days go and no update..lol. if im not wrong i even saw that he stated in the sales page that there is 4 or 5 methods inside...There was only 1. Fine i did not make big deal of that...

days go and i ask him, when is the updates coming? I get a typical BS reply with " its my birthday give me a few days" While it was his birthday he stil managed to make several threads selling other stuff?....at this point i knew..there will not be any updates.

He even have time to update the page saying " price will go up several times" when the price is still the same..

"10-21-2017

Funtela

Update will be released tomorrow and the price will increase as well!"

I Pmed him today, 3 weeks after his " birthday" asking wheens the updates coming? ..no answer :)

I even saw someone writing in this thread " I have seen THIS method before but looks promising " which means he also got 1 method and not 5...he bought after me a few days after funtela updated the thread stating he will rise the price and all that BS.

this folks...is what i call fake people ..promising stuff they cant hold. I have had several people in my real life acting the same. they all was thrown out of my life.

Sorry man...But this sounded too good to be true...and it was.

Im not gonna dispute or ask for money back...I dont care about that really. I care more to see how fake people really are these days. And im good, i dont need any updates...because there will mostly

not ever be any updates at all.

WaterFlow - November 10, 2017, 5:04 am

With the new Snapchat algorithm will this work?

A couple of the methods I was adding to the update stopped working. So I've been finishing up on some new ones.

MoonL1ght - August 3, 2018, 3:22 am

Very interested!

Any recent reviews, as the previous reviews are from a year ago..?

Ragnar, how many views can I get with this per day? (Same as OP?)

Does it have anything to do with IG?

If you can give me 50% off, I'll buy it asap and review next week when I'm home again ;)

I want to buy your IG coaching with 3-6 months from you so this may be a good start!

This will enable me to buy the coaching much quicker if it works.
