Thread: [\[SUGGESTION\] Counter Strike section prestige too high?](#)

JLOLL - June 14, 2017, 2:26 pm

Sorry if this was already suggested and denied or what ever. Tried looking for this didn't find anything really.

Hey so I recently joined Hackforums and noticed that Counter Strike section is only available when you're 25 prestige.

Can't it be lowered to like 10 prestige? Since I'm mostly interested about the Counter-Strike section in here and "leveling up" to 25 prestige can take ages. I don't really care buying an upgrade just to be available to post on CS section and mostly because I don't even have/use btc.

grady - June 14, 2017, 2:27 pm

The CS section was used by a lot of new troll accounts/etc because y'kno cheat coders like to flame each other a whole lot

M?xim - June 14, 2017, 2:29 pm

Might have to agree with you here, it is a bit high. But it is completely up to the admin. There's probably good reasons for 25 prestige instead of 10.

But I can understand your frustration of wanting to post there but not being anywhere near 25 prestige.

Hmm, 25 does seem a bit high but I recon omniscient choose 25 specifically because the section was abused by fairly new users who had/could easily get 10 prestige.

Who knows, in the end it's up to him so let's see what his opinion is about this.

Omniscient - June 15, 2017, 6:37 pm

Set to 10. Thanks.
