If you didn't reedem other codes, eg \$10 code you get for registration, you can apply \$50 code.

If not, you should make another account.

VERY interested..

I primarily need a ton of VPSs/VMs.. I guess Amazon Web Services should probably be a great deal.. Getting \$150 worth for \$10.. Would be scaling this to like 500 -1000 AWS..

Quick questions before i buy:

- Is there any way at all to use this to get Google Cloud or Azure services ?
