We had some drama go down over a deal dispute, that hasn't been resolved on either end, will nor it be, because mods don't get involved with the type of deal we had. You can view my threads for the deal dispute.

Anyways, we have never got in contact "off-site." So this I'm taking as an indirect threat.

I didn't think much of it until he started posting my siblings names within this forum. This type of behavior shouldn't be allowed, and is blatant harassment. I realize moderators can't get involved with our deal dispute, but they should be able to get involved with this immature behavior:

Spoiler ([Click to View](#))

So he's threatening to get in contact with me "off-site", saying he's taking this matter to the "fullest extent", harassing me, and posting my siblings names within the forum. Is this type of behavior condoned?

I disagree, he's actually in violation of the very first rule posted on HackForums:

1. Members are not allowed to engage in threatening behavior toward other members. This includes flaming. Also threats to steal accounts, dox, or swat. This includes any on-site material such as posts, PMs, or profiles.

You're not allowed to post the information on-site but Omniscient himself has stated that it's okay to dox a scammer to find out where they're and to take legal matters. The harassment on-site though isn't allowed.

No.

He can dox you but not threaten you on site with it.

What he does off HF is his responsibility and not staffs. But if he threatens you with swat etc on HF then he can be banned.

EDIT: wait you're a scammer? LOL

I understand, but posting my siblings name within this forum is beyond unnecessary.

He posted my siblings name - that's has nothing to do with taking legal matters. That's unnecessary harassment.

Which is why I said it's harassment and not allowed.

I'm gonna give you a lesson

You gotta do everything by your own. There is not always gonna be a person to protect you

You got bad luck and bad day op. Hf not allowed doxing and threat member on site. But outside the site they can dox and threat you. If may i suggest. Protect yourself out there op. Change your username and password as soon as possible. Good luck.

Enzio - June 15, 2017, 8:47 am

He is 120% allowed to dox. He just cannot post the dox on HF and/or harass you but whatever he does outside of HF is not Omni's problem.

THE RULER - June 15, 2017, 8:53 am

I checked the other alert you posted and the scam report from him.. seems you are a scammer lol

Regardless, unless he's harassing/threatening you with your dox on-site then this is allowed.
