Thread: [Level 147/256 Games/FIRST TWO CDKEY SCANS](#)

This is a pretty great account to start with.

OE is not included.

First two keys ever activated on the account ARE included.

I'm too lazy to screenshot all the games. The notable games are GTA V, CSGO, RE7.

How old is the account, and does it have any bans on any of the games, and is this account associated with any forum or website, or would be linked anywhere.

Interested in this.
