Thread: [Making a wordpress website and have a few question](#)

Long John Blonde - June 15, 2017, 9:29 pm

Hey,
Just making a WP website now, I am having a few issues on how to do a few basic things to my theme etc...
If anyone has the time to answer/help out with a few aspects I would be super appreciative!

What exactly are your issues and what theme are you using?

I may help with it.

~Rude Boy ?

~Rude Boy ?

I have sent you a PM, appreciate it.

I am looking to replicate a few features from these sites
