Thread: [5 hottest questions in the bitcoin industry today. \(ANSWERED\)](#)

mybankisemptyy - June 16, 2017, 4:50 pm

I see alot of people spamming this section asking the same questions over and over again. Well I found this article and I hope you guys read this and understand what it says.

- 1) Why are people calling this a bitcoin bubble?
- 2) What is Ethereum and why are people talking about it?
- 3) What are Initial Coin Offerings (ICOs)?
- 4) What is all this talk about scaling?
- 5) What will happen to Bitcoin on August 1st?

Kill Joy - June 16, 2017, 5:05 pm

Pretty good and simple read for most users. I disagree that POS is solely a Con though. There are many solutions to fixing problems within POS. They also talk about how scaling sucks, but with POS that will make scalability easier.
