Thread: [Binary101's Cryptocurrency Help desk](#)

Binary101 - June 17, 2017, 5:53 am

I've been involved with Cryptocurrencies for quite a bit now the last years.

I'm also involved with quite a few crypto-projects.

Feel free to ask all your questions on this helpdesk.

Compact - June 17, 2017, 6:15 am

are you bag holder and any promising projects that still have low marketcap?

Great to see a thread like this. Hopefully this will stop off-topic questions on some other threads.

I currently invested money with a few partners into cryptocurrency mining. (ASICS and RX 580s)

Will most likely be investing a little bit into some crypto stocks soon like you said with low MC.

Was also thinking of starting an improved Bustabit 2.0, but it seems out of reach for me right now to have the entire system developed, bankroll + advertising.
