BEFORE YOU READ THE REVIEW

Spoiler [\(Click to View\)](#)

-You must understand that the reviews I make are from my point of view.If I grade 3/10 that doesn't mean the method itself is bad, maybe for other people that method is 7, so keep this in mind when you're reading my reviews.

-My reviews will probably piss off many people and break some of their businesses ...or raise them.This means I will not debate with the sellers whether or not my reviews are accurate.Unless there is really something wrong I won't recheck my analysis.

-I review good and bad products, not only bad products as some of you may suspect.In the end, remains the decision of the reader if it's bad or good.

FAQ

Who am I?Spoiler [\(Click to View\)](#)

-A random guy that bought dozens of methods in the past few months from HackForums Sellers, and with disappointment, I announce that 90% don't work or they require insane hard work to even get them started. Highly "vouched" methods, with "valid proofs" from so highly upper-class "highly vouched members/old members" or how you want to call them, methods that look good on paper but on practice leave you with a sour taste in your mouth and with dust in your wallet.

-For those that keep asking me, "who I am and how I buy for months but my account is only for a week". I've been on hackforums for awhile now, my first account was around 2009 but was disabled due to inactivity. I kept coming back.Never engaged in topics too much.Until 1'st May when I decided I should make reviews about products.

What I'm going to show you?Spoiler [\(Click to View\)](#)

Few angles to look at when you're buying a method and few insights of what each method consists of.

I will keep this short and say this - you don't have to become an investigator but in the end is YOUR money and YOUR time you're going to throw at a random guy that promises you the moon.

Nothing to analyze here.

Doesn't have any vouches.

Vouches such as "Vouch for X, he always has great products!" , "You can't get wrong with X!" , "I vouch for this guy he knows what he's doing!" , "I tested out this product, it works! Great Product!" are not taken into consideration. Vouches without legit-proofs are not taken into consideration. Text-proofs are not taken into consideration. This is a community and in the end people connect to each other either by friendship or a common interest they'll provide a vouch.

Methods:

Product:

Method 1#:

How much investment does it require?

Minimum of 5\$ is required.

Description:

CPA.Requires finding a niche.

If you're not new to CPA it's not very different from any other CPA methods out there.However, the seller provides few examples and provides his exact source of traffic, which I find a big plus.

Time:

Requires creativity.

The set-up may depend on your creativity and how hard you work for it, it can take up to few days to set-up.

Requires re-investing and may trial&error it due to saturation / other factors out of our control.

Method 2#:

How much investment does it require?

Minimum of 20\$ is required.

Description:

Dropshipping.Requires finding a niche/products.However, the seller provides few examples.

Time:

Requires analyzing the markets.

However, the time it's connected with the investment here.The more money you invest, the more time you'll have to put in.

Method 3#:

How much investment does it require?

Minimum of 0 is required.

Description:

Selling. You have to sell an digital item the seller tells you about.

Time:

Not hard at all, will take only a bit of time to set-up.

Waiting for it to be sold it's the hardest part of this process.

Method 4#:

How much investment does it require?

Minimum of 0 is required.

Description:

Re-Selling/Dropshipping.

Requires finding products/niche, the seller provides you a specific example and the place where to sell them.

Time:

Requires analyzing the markets. A bit of creativity.
However, the time it's connected with the investment here. The more money you invest, the more time you'll have to put in.

Method 5#:

How much investment does it require?

Minimum of 0 is required.

Description:

Blackhat. Requires you to sell an item you don't own.

Convincing. Can enter under SE category.

Time:

Requires convincing. And also promoting, the more trusted you look the higher the chances of succeeding. Takes time until you set-up everything.

Personal review:

About the product:

Spoiler ([Click to View](#))

5/10

- Methods are good for people that are new to CPA, dropshipping.
- Provides few tools to ease your work / improve it. Provides examples for each method.
- Work, time and creativity are required.
- After you set-up, it can take up to few days to see some money.
- A PayPal account it's required for most methods.
- Some methods can risk your PayPal account.
- Most methods require proper research before starting or setting up.
- The third method it's a bit Greyhatish due to the fact of HOW you sell it, the seller also mentions it inside the ebook. Now, in my opinion, this is not too dangerous, if you sell only once or twice at a moderate price you should stay under the radar.

Regarding this method, he could've definitely given more information / elaborate.

- The fourth method - provides you a new marketplace where to sell the stuff, not basic Ebay.
- Methods are not autopilot, you have to constantly be looking, updating, analyzing and brainstorming for new niches, products, etc etc. Unless you want a small income.

About the seller:

Spoiler ([Click to View](#))

6/10

- I really like how he placed the information, explained and how he structured his information inside the ebook. On the other side, there are few things he could've definitely elaborated more.
- Doesn't provide information on what he sells, keeps it a mystery.
- On some points, he is honest, on other not so much.

Provides a video proof of his earnings

Doesn't have any complaints, refund requests in his topic, however, this can be due to the fact the release was quite recent.

This grade reviews his way of advertising, addressing to potential customers and his way of convincing them.

I do not know why, but I always like to read your reviews even though I am never going to buy these kinds of products.

Ty for making them ;)

M?xim - June 17, 2017, 3:56 pm

Can you really sell an ebook regarding drop shipping when it's disallowed?

Quote:Drop Shipping

Guides, threads, and services related to drop shipping will not be allowed on HF.

Yep, I usually jump early on them, that's when they are most "virile" but will happen more and more rare, next will be either ombra,h3god or vyrez or milkbone.

Hence the mistery of sellers...

hopeforme - June 17, 2017, 8:55 pm

Great! You exposed another ebook that it's about drop shipping, so their thread will be locked now right! I didn't even know my thread would be locked, ugh! I only got a verbal warning though, but I can't make money from my ebook any more :(And all the people who expressed interest were actually not serious/backdealers, irritating! I can't make my money back from being scammed any more.

Since their drop shipping ebook is obviously against the rules, I hope they will be banned!

I was almost interested in the ebook because of the AMAZING thread design and aesthetics, but I always know that HF ebooks are shit, except mine, but the good ones get locked away. So I didn't buy his shit. Phew!

Ban them all!
