Thread: [Any information on SAO Season 3?](#)

Social Marketing - June 17, 2017, 4:48 pm

Did they announce anything about S3 Release date? Can't fucking wait for S3.

I heard they are going to make a new season, but when?

Lor?d - June 17, 2017, 4:54 pm

Shit man I don't know but when there's news about it I definitely want to know!

I'm not too sure if that's what they were doing, but if they did that then they're not doing any more seasons? Just movies?

Or would the anime pick up where the movie leaves off?

Seems kinda stupid to do that.

Although I did go and see the movie in theaters and it seems like it picked up right where the anime left off and that could definitely be the case.

hmm Heaven Lost Property did that. They made 2 seasons then made a movie to finish series off. Not 100% if that what SAO but here the link to movie

I seen the movie fam XD

I'm saying though, pretty sure they're not ending it yet. It's got tons of potential still.

So by them releasing a movie like this it throws a lot into the air.

Will Season 3 pick up where the movie left off?

Will they stop the anime entirely and just continue making movies?

Or will they just drop the entire series now?

shit my bad just notice it was released already but not 100% about subs. er SAO was pretty shit.

First half was amazing second half shit. Season 2 was good then turned to shit again. Also, if the movie followed the anime then I don't see why. They might make a new season instead of an anime but then again I can't see the future. Also, I doubt they'd drop a show that is popular to new people watching anime. Then again Log Horizon still doesn't have a s3.

I wish I could. I went and seen it in theaters. Shit was entirely sold out.

It was amazing.

I can't find it online anywhere sadly. I'd love to watch it again.

All I know about following up Season 2 is the movie, Ordinal Scale. I haven't seen it yet but the dubbed version is being screened in cinemas here soon. I could see them making a Season 3, the entire franchise must be extremely profitable.

It would be sick if they made a Season 3 ?

Not sure what you mean about the subs. The movie had subs when I saw it XD

The anime itself, I enjoyed it all. I liked S1 and S2.

To be completely honest I like Sinon more than Asuna, where other's totally hate Sinon.

I suppose everyone has their own opinion and what not.

I don't see them dropping the series considering they managed to sell out theaters across multiple countries when the movie was released.

I just think it's kinda weird for them to make what was supposed to be S3 into a movie. Now how are they going to pick up S3? If someone decides to watch the anime and not the movie they will be completely confused unless S3 completely disregards everything that happened in the movie.

I'd fucking love to watch it again. The movie really had some emotional parts to it. I loved it all around.

No way? For real?

Shit I saw the subbed screening. If it's showing a dubbed version i'm definitely going to see that too!

Ah! Thanks for Letting me know ??

Esdese - June 18, 2017, 3:49 pm

The only thing I know is that it's 100% confirmed to be coming. I saw Ordinal Scale in theaters and the post credit teaser showed some cool hype stuff and faded into black saying "SAO will return."

Thornzzz - June 18, 2017, 6:41 pm

They're supposed to be making a third season this year. At the end of the credits of the latest movie it announced that.

Basically only two things are confirmed at this point:

1. Season 3 will actually happen.
2. It will continue adapting the original light novels and move into the "[Alicization Arc](#)."

Based on past release dates and time-gaps as well as the amount of content produced I predict a Summer 2018 release date for Season 3.

They announced at Sakura-con 2016 that they wouldn't begin working on S3 until they finished production on Ordinal Scale, which (I believe, according to an interview I can no longer find) they finished only a week or so before the original release date of Feb 18th.

Interested why there is so much hype and wanting for a season 3 of this series. I mean it's kind of washed up I have my reasons for this :)
