Thread: [New 2Pac Movie](#)

iDooM - June 18, 2017, 1:26 am

Hey fellow HF Members I was just wondering if Anyone has seen the New 2pac movie.

I've be seeming a lot of Negative feedback on this film. I want to watch it but I don't know if it's worth going to the movies and spending money on. Previews seemed pretty good but I recently seen a post where 50cent was bashing the entire movie stating that it was a lot of fabrication.

All opinions are Welcomed.

thales - June 18, 2017, 1:27 am

Kamiya - June 18, 2017, 1:28 am

I heard the same thing ??

EricDraven - June 18, 2017, 12:51 pm

I know they were not allowing critics to release reviews of the movie until right before it opens and the reviews are not good

Lexy- - June 18, 2017, 5:54 pm

The movie was straight shit. Believe the critics. Though, I'd still watch the movie just to watch it if I were you.

LMAO!

I've also heard the movie wasn't very good and wasn't accurate.

Prophett - June 19, 2017, 7:35 am

It's not out yet where I'm from. But I'll be going to watch it.

insidious one - June 20, 2017, 4:07 pm

i heard this was suppose to be a good movie? y/n

Errors - June 20, 2017, 4:09 pm

The movie is just so far from reality... Not technology but what actually happened in Pac's life/story

Cyrus - June 20, 2017, 4:11 pm

50 cent posted on Instagram that it was a disappointment and wrote "catch that shit on a firestick SMH" lol, although Mayweather posted saying it was awesome!

SIM-2403711 - June 20, 2017, 4:12 pm

The movie didn't even include shit about Pac's involvement in Outlawz. It wasn't awful, they just missed a lot of details. But you cant compress the whole life of Pac in a 2 hour movie.

OnlyProfit - June 20, 2017, 4:13 pm

If you're a real tupac fan don't go watch it. Its a shameful movie. Haven't seen it yet. But his mother and jada pinkett smith said it aswell. It shows nothing about tupac. Its a bullshit movie.

His mother is dead. You aren't a real Pac fan if you didn't know that. Smh

Gee even more reason not to watch it. It looks like a bad blackploitation film. Menace II Society, or Boyz in da Hood is much better.

mollyshannon - June 21, 2017, 4:21 pm

There is so much hate surrounding this movie already from rappers. I think its going to be great and Biggie is promoted so much by P Diddy even now! they made that NWA movie ..I mean its finally time for 2 pac movie.

WaterForLiquid - June 21, 2017, 4:32 pm

yeahhh the movie seems terrible lmao

the movie is straight up trash lmao

FabQuit - June 21, 2017, 5:42 pm

Have not see it yet. But now i would love to more since all these mentions of there being an iPhone and a Fidget Spinner being in a movie. LMAO.

YoMy - June 21, 2017, 7:49 pm

Terrible Movie but if u love rap you will like it anyway... From 10 Points i would rate it to a 5-6, so nothing special...

Prom?nent - June 21, 2017, 9:22 pm

Alright, i'm gonna lay the truth about All Eyez on Me. The movie is actually subpar and it doesn't scratch the surface of Tupac's life. It leaves a lot of important parts of his life out. The movie was "eh". It could have been better and I wished it was better but hopefully, someone else makes another Tupac movie to reflect how gifted, poetic, and wise Tupac was.
