Thread: [Bovada eSports Betting Thread \(CSGO\)](#)

ohxerxe - June 18, 2017, 1:42 am

I wanted to start match betting again so I wanted to keep track of my bets and see how far I can reach. I will be updating this thread as much as I can with every single bet I make pertaining to CSGO as this will be the main and most likely only game I will be betting on. If you would like to check out bovada click my sig.

STARTING BALANCE: \$80.00

CURRENT BALANCE: \$95.96

JUNE 2017

Spoiler ([Click to View](#))6/17/2017

Days Starting Balance: \$80.00

Bets:

Parlay- (Mousesports, NaVi, Cloud9, VP), Risk: \$5, Potential Return: \$21.72 - Lost

Only bet I will be making for the day. Mousesports and Navi should be a sure win, but the C9 game is going to be iffy. The odds on VP at the time of bet are +110 and I believe they have what it takes to win their match so I decided to add them in. Will update as soon as possible.

Ending Day Balance: \$75

6/18/2017

Days Starting Balance: \$75

Bets:

Beacon -240 vs Miami Flamingos +160, Risk: \$2.50 Beacon, Potential Return: \$1.04 Lost

ANTI ECO -130 vs Miami Flamingos -110, Risk: \$2.50 Miami Flamingos, Potential Return: \$2.27
WON

Beacon has been looking strong throughout the MDL and Miami is not looking good. I chose Miami over ANTI because ANTI is already 0-3 for the season with a loss on Overpass already and Miami although being 0-2 will have an overpass game right before this match against Beacon so I think they can take it.

Ending Day Balance: \$74.77

6/19/2017

Days Starting Balance: \$74.77

Bets:

Fnatic -145 vs Immortals EVEN, Risk: \$2.77, Potential Return: \$1.91 WON

Parlay- (Fnatic -145, SK Gaming -600, Space Soldiers -900) +119, Risk:\$2.00, Potential
Return:\$2.38 WON

Fnatic has what it takes to beat Immortals although they did fall to CLG this event. I added them into the parlay to get a better return. I know I am betting small but wanting to try to grow the bankroll steadily.

Ending Day Balance: \$79.06

6/20/2017

Days Starting Balance: \$79.06

Bets:

Parlay- (Mask Off, Mythic, Rise Nation) -112, Risk:\$2.06, Potential Return:\$1.84 WON

Just a quick bet for tonight's ESEA Matches. Only one I think could go in the other teams favor is the Mythic game.

Ending Day Balance: \$80.79

6/21/2017

Days Starting Balance: \$80.79

Bets:

Parlay- (Athletico, Alternate Attax, Epsilon, Tricked, Denial, French Canadians, Rise Nation) +364, Risk:\$2.79, Potential Return:\$10.17 WON

Decided to just do one big parlay. Most of these teams are a sure win but you never considering these are all best of 1's. My ending balance got like \$0.23 added to it for some bonus I believe so it will be factored into the end day balance once the bet is over. Most likely wont do any bets tomorrow so I can put some good money on the pros this weekend.

Ending Day Balance:\$91.19

6/23/2017

Days Starting Balance:\$91.19

Bets:

Cloud9 +220 vs Fnatic -350, Risk:\$1.19, Potential Return: \$2.62 WON

Ending Day Balance:\$93.81

6/25/2017

Days Starting Balance:\$93.81

Bets:

Parlay- (SK Gaming, Cloud9), Risk:\$1.81, Potential Return:\$7.69 Lost

Parlay- (Tyloo, Space Soldiers, Red Reserve, SK Gaming), Risk:\$2.00, Potential Return:\$2.48 Lost

Hoping C9 can perform well in the semi finals especially after taking down Fnatic and Astralis.

Ending Day Balance:\$90.00

6/29/2017

Days Starting Balance:\$90.00

Bets:

Parlay- (Optic Gaming, Team Liquid, Cloud9, Mousesports, Renegades)+461, Risk:\$10.00, Potential Return:\$46.13 Lost

Cloud9 vs. BIG, -210, Risk:\$25.00, Potential Win:\$11.90 WON

Parlay- (Mythic, Mask OFF) +113, Risk:\$1.90, Potential Return:\$2.15 WON

Putting a decent sized amount on this parlay most of these games should be sure wins and I think all these teams have what it takes to beat the teams they have to play. Added a recovery bet and won.

Ending Day Balance:\$94.05

JULY 2017

7/1/2017

Days Starting Balance: \$94.05

Ending Day Balance:\$95.98

Bets:

Parlay- (Cloud9, SK Gaming, G2 Esports) +106, Risk:\$5.98, Potential Return:\$6.36 Lost

Ending Day Balance:\$85.00

Ending Day Balance:\$101.09

7/17/2017

Days Starting Balance:\$101.09

Bets:

Parlay-(Immortals, Cloud9, G2 Esports, SK Gaming, Fnatic), Risk:\$1.09, Potential Reward:\$6.98

Bovada supports esports? What is it under? I've never seen it.

Try using a spreadsheet to keep track. It would be easier.

If you click on sports there should be an arrow at the bottom of the list saying all sports. Should be a few selections down. I would be on Nitrogen but I dont have an easy way of getting and selling bitcoin.

I might do so in the future but I really want to have a focus on this thread because I havent really had a purpose to be posting much on the site since I've been busy with work lately.

Thanks forgot about that. I remember seeing it in the past along with darts and stuff lol.

Decided to put up the days bets before heading to the gym. Currently just trying to build a steady bankroll with smaller bets. Also I do not want to get cocky with these bets especially with all these Semi Pro teams. you never know what could happen.

Best of luck OP. What site do you use to place the bets, looking to put some money on some csgo teams.

Currently Using Bovada as it is the best option for me at the moment. You can click my sig to be redirected. They offer upwards of \$3500 in bonuses to new users. They accept bitcoin aswell but I am not using bitcoin as a payment but If I do withdraw I will be withdrawing in bitcoin most likely.
