Thread: [Quan Zhi Gao Shou Season 1 Was Pretty Good](#)

I was actually a big fan of this anime. I like the way they used the story and built the relationships. I'm actually pretty excited for season two and their pro run. Also, it'd be dope if they made a season about his time with Excellent Era. Thoughts or opinions?

Haven't watched the season finale yet because it isn't available on the Tencent YouTube channel yet, but I am really enjoying the series.

The animation is actually really well done, and it fits a niche as, imo, it is the first good e-sports series. Not to mention it has made news considering it is a Chinese production. Really excited for a season two.

Well go watch it on kissanime it's already finished.

About season 2.

It's confirmed but hoping the animation or the story will stick to the manga itself.

As it's official that another company is in charge of producing for the 2nd season.

If you guys like the The kings Avatar. Go and watch Full-Time Magister (Quanzhi Fashi)
