Why you want to join Torque:I have never been able to join a group on HF, some because of lack of knowledge, some because I didn't qualify (for groups that are in business etc). I'm very knowledgeable with cars and motorcycles as I grew up with a father that owned a Motorcycle shop and constantly tore engines apart. Cars, Bikes, ATVs, Dirtbikes, and Jet skis, kind of everything which taught me soo much which I didn't realize until I started working at Shockley Honda in the service section, they were blown away by the amount of things I knew of, and knew how to do at my

age.

Why we should invite you to Torque:I'm decently active, you'd see me repping this group TWENTY FOUR SEVEN. This would be my pride and joy on HF to be in a group specified for gear heads omg. And if it makes any help, I just got done in a ride along in my friends 370z and got some slides out the way. I'm a huge car enthusiast and my snapchats never lie

What do you ride/drive?I have a 2008 Subaru Impreza, 2.5i Naturally Aspirated with UEL Borla Headers, New southbend stage II clutch. Nothing too crazy but have big plans to swap out the engine for that of an 04 STI or WRX (EJ20) engine with boost

SIM-403479 - June 22, 2017, 2:10 am

Definitely a great group for car enthusiasts.

Good luck all who apply!

Percyi - June 22, 2017, 2:14 am

Been a huge car enthusiast myself for years and absolutely love cars, but I don't meet the post requirements.

Nevertheless, good luck to all who enter. This seems like a wonderful group.
