Title says it all. What y'all think?

Enzio - June 21, 2017, 12:53 am

Angel Beats was shit. No idea how this shit is even popular.

Siacoin - June 21, 2017, 12:54 am

thinking of picking up the show again was bored after 10 min in the episode

Pretty much this. There really isn't a need for a season two because there was plenty of closure in the first

This!^

Did the vn come out yet?

Heard they were making it but I never really followed up.

You want another mainstream show with massive plotheoles.

This^ The show ended well enough, if there is a season 2 then it'd have to be entirely different characters in it with maybe some reference to the original people.

I got no problems, just come on. Can't take the piss out of a "mainstream anime with plotheoles" and then like K-ON a fuck ton haha.

Please find me a plot hole in k-on

Always bugged me that it was convenient that Tsumugi's parents are not only incredibly rich but own the one instrument store they walk into and basically give Yui a fucking Gibson. On top of that, there are other things just to lightly advance the plot point. Yui has 0 experience with music but somehow picks up a guitar and can not only read sheet music but can play to an advanced level. In the real world it doesn't work like that, trust me. Even with all that practice, it takes more than a few months.

Probably keep going but they're the two biggest that irked me. I still like the anime, super fun and everything and was one of my favourites back in the day. Just you cannot be so biased to make fun of another "mainstream anime with plot holes" when you're obviously a big fan of K-ON!

Also Yui is a fast learner. None of that is a plot hole.

"In fiction, a plot hole, plot hole or plot error is a gap or inconsistency in a storyline that goes against the flow of logic established by the story's plot. Such inconsistencies include such things as illogical or impossible events, and statements or events that contradict earlier events in the storyline." none of what you stated is a plot hole unlike Angel Beats what has a HUGE plot hole.

Fragger - June 21, 2017, 8:47 am

I never saw the appeal of the show, I watched about 6 episodes with a friend and we were both fucking lost on what was going on.

CorrosiveBlueberry - June 21, 2017, 8:54 am

There are a few Angel Beats OVA that I didn't know about that were released a few years after the show; or honestly like only a couple years ago. You could try watching those to get your hype up. lol

B?ue - June 21, 2017, 8:58 am

I don't know tbh.. I fucking love Angel Beats, but it's one of those series where I highly doubt a series 2 could live up to the legacy, the expectation and the hype.

It left on an amazing ending but I just don't think a second series could match it. Just my opinion.

Froggy - June 21, 2017, 9:04 am

I'd love to see one just so I can have something to watch, but I don't think it could live up to the first season.

No point arguing because you aren't going to listen. You can't just waft away her family being conveniently super rich along with her being "a fast learner". I worked at a music store for 4 years, it isn't how it works in real life.

Also are you reading what you quoted?

Don't get me wrong its no angel beats but come on. Anyway, cba, just going to go round in a circle.

Caliban - June 21, 2017, 9:12 am

Angel beats was 8.5/10 in the first EPs but towards the ending it got so bad that in total i give it 6.5/10. However that happens a lot with 12EP anime, it leaves u kind of unsatisfied cuz the plot feels too rushed

That's what they said about Code Geass, yet they're doing season 3 for that one... so I wouldn't be surprised if due to enough popularity they'd beat the dead horse with a new season.

X X X X - June 21, 2017, 10:57 pm

Meh Angel Beats ended pretty well, a season 2 could ruin it.

potettmaster - June 22, 2017, 9:39 am

yeah, angel beats came out what? 2011? artwork was definitely great for its time. story was unique too compared to what we got now (SAO cough cough or slice of lifes). i could see it, maybe where it shows them in their new lives or something

Getsuga - June 22, 2017, 6:56 pm

I dont think a season two would make much sense to the story.

Cylow - June 22, 2017, 6:57 pm

Fucking yes man. The epilogue where they met again in a different world fucked me over.

X X X X - June 23, 2017, 1:06 am

Here watch this

Geass - June 23, 2017, 5:03 am

What to say, it wasn't so special anime to be so excited, and it had normal ending, other anime that are better doesn't have second season, i doubt they will make for angel beats.
