BEFORE YOU READ THE REVIEW

Spoiler [\(Click to View\)](#)

-You must understand that the reviews I make are from my point of view.If I grade 3/10 that doesn't mean the method itself is bad, maybe for other people that method is 7, so keep this in mind when you're reading my reviews.

-My reviews will probably piss off many people and break some of their businesses ...or raise them.This means I will not debate with the sellers whether or not my reviews are accurate.Unless there is really something wrong I won't recheck my analysis.

-I review good and bad products, not only bad products as some of you may suspect.In the end, remains the decision of the reader if it's bad or good.

FAQ

Who am I?Spoiler [\(Click to View\)](#)

-A random guy that bought dozens of methods in the past few months from HackForums Sellers, and with disappointment, I announce that 90% don't work or they require insane hard work to even get them started. Highly "vouched" methods, with "valid proofs" from so highly upper-class "highly vouched members/old members" or how you want to call them, methods that look good on paper but on practice leave you with a sour taste in your mouth and with dust in your wallet.

-For those that keep asking me, "who I am and how I buy for months but my account is only for a week". I've been on hackforums for awhile now, my first account was around 2009 but was disabled due to inactivity. I kept coming back.Never engaged in topics too much.Until 1'st May when I decided I should make reviews about products.

What I'm going to show you?Spoiler [\(Click to View\)](#)

Few angles to look at when you're buying a method and few insights of what each method consists of.

I will keep this short and say this - you don't have to become an investigator but in the end is YOUR money and YOUR time you're going to throw at a random guy that promises you the moon.

Methods:

Product:

Method 1#:

How much investment does it require?

Minimum of 0-5\$ is required.

Description:

Re-selling. Provides the source where to buy the accounts, it's new, at least for me. But after that, you'll have to sell these accounts, and this happens in very active markets, which it's good and bad.

Time:

Requires promoting, time.

The set-up's not hard at all. The hardest part will be waiting for sales.

Positive feedback, positive reference may affect your sales.

Personal review:

About the product:

Spoiler ([Click to View](#))

6/10

-Requires finding a market where to sell. The seller provides few examples and how to find one.

-The more people will know about this the harder will become to sell stuff around.

-The set-up's very easy does not take long. The hardest part will be waiting for sales to happen. Also, I cannot vouch for the security of the accounts. That will be part of the business and a risk you must take.

-Provides few examples that are more profitable than you should buy.

-This marketplace where you buy the Accounts supports Bitcoin too.

-Building trust, having a positive references/feedbacks can affect your sales.

-From the same marketplace, he offers a bonus where you can re-sell another similar item.

About the seller:

Spoiler ([Click to View](#))

7/10

-The seller is not shy with his product, what he offers that's what you get.

-I would say 8\$ it's a very fair price the seller has requested for the ebook.

-Has a complaint in [his thread](#), but seems to be related to an older thread.

-Seems to answer all questions inside his thread. Even though the thread it's not very old.

Does not provide proofs of earnings from his own methods. Inside the ebook, he does provide, but

those are from 7-9 months ago.

This grade reviews his way of advertising, addressing to potential customers, his behavior and his way of convincing them and the connection between him and his ebook.

shifty1337 - June 21, 2017, 5:13 am

There should be more people doing this... The Ebook section would look a lot cleaner and professional!

Mr. Reviewer - June 22, 2017, 10:53 am

I will bump this thread since I closed the other one.

[We are looking](#) for persons to review products, from crackers to money making ebooks to Ewhoring and anything you feel like.If you decide you like Ewhoring, there will be a whole market only for you to review, you can pick your own products you want to review.

The down side: you'll have to procure your own products. Meaning you either buy the product, make a bargain with the seller for a honest review or open a thread and wait for other people to come to you.
