+Cloud baby, think you could look at my thread?

<https://hackforums.net/showthread.php?tid=5652121>

TL:dr

Quote:I am looking for a logo for my new forum I am making with Yui-Senpai; it's called pantsu.sx - get as creative as you would like! We don't know exactly what we want yet; something fun, yet not tacky, professional. Maybe adding in the Japanese characters would make it weeb as fuck (which it needs to be). Have a ball with this one!

Also; Yui requests that it look kawaii as fuck - and also, the .sx part at the end is not mandatory; we aren't sure yet if we want that to be a part of the name or just the domain right now. All depends on how it looks!

Also I need some user bars, can you do those?

Edit: Vouch for +Cloud, have worked with him before and he sure provides the sweetest gfx out there!

CAn vouch for +Cloud.

He's made me 10+ signatures over the years.

Current one I'm wearing was made by him.
