Rokudenashi majutsu koushi to akashic records. It's a really good anime. Some call it Konosuba 2. Personally I think it's something a bit more serious. But still enjoyable.

@Yui-Senpai

It took me 3 mins to realize that this is your signature.

Its not that I don't like it, its that I watched the first 2 episodes and not had time to finish it.

have you seen No Game NoLife yet? its pretty good imo (compared to other bullshit animes out there). decent story/plot 7/10 but the artwork and music make up for it

Konosuba is one of my favourites :) I hope we get a season 3 next year or something. There's still an OVA coming.
