Seller rate: (10/10)

The seller is replying to my questions very fast and he is very helpful and kind guy who is Impressing customers with his nice self-made eBooks.

Ebook Rate:- (9.5/10)

The eBook is well explained from A to Z and it is something worth buying it which can make you more than +500 USD per week if you put 1-2 hours daily working on it and even more if you put more effort and time into it and it doesn't require any Money Investments only Time Invest. I would suggest anyone who want to earn money this is the right eBook for you. (Jun 22, 2017 06:39 PM) Ravioli Wrote: [\[CITE\]](#) I got a vouch copy from OP and here's my honest review. It actually was not as bad as I thought it was going to be. Never heard of it before and didn't find any results from a brief google search. I feel like in the first week you won't be making a ton of money but as time progresses you'll definitely see it build up. Once you get started it's just exponential from there. Not to mention it's completely whitehat too, which is a plus. Overall, not bad. I can definitely see this being a very consistent source of income if you scale it decently and work hard at the beginning. 8/10 (Jun 22, 2017 07:28 PM)lynnex Wrote: [\[CITE\]](#) Vouch for Rock, he's a trusted seller and a nice guy.

Galardowyn - June 23, 2017, 4:12 am

I received a vouch copy . I'll let my review here once I'm done .

Review time :

First, this draft review , is my review before testing the product i self . So it will be axed on the potentiality of this .

So I received the deluxe edition with the bonus method . But let's first talk about the main one .

This can work . Op will "pre-chew " some steps of the work for you . I bet some of you , have already thought about this probably . But it wouldn't have come to my mind before . It's quite easy to execute , no need to be ultra smart . It will require some times tho . It's semi autopilot as you will have to update the thing you'll be doing around once or twice a week .

About the bonus method , I already saw it somewhere else . I think one guy is selling it . It's an addition to the main method . Nothing hard either .

About the money you'll be able to make , it will depend a bit on you tbh . The price you'll set , the time you'll inject (even if op helps you a lot with this factor) + an external factor .

I'll make a new post with the final review once I have tried the method .

Have a great day .

I feel you, that's why I wrote this! Check out the other reviews by people who were skeptical at the top of the thread. It's very good news!

Also if you notice, those people have 10-20 eBooks out at one time for maximum profit. They want customers by the seconds! The eBooks are all public and they get away with it because of their rep! I can't do this and if I could I wouldn't.

Any proof that the seller is 14 years old? If not then it is false advertising!

Ratt - July 2, 2017, 1:01 pm

Here is my honest review about QuantumCash, this was a vouch copy.

This method is actually an ebook I think can actually make you money.

Keep in mind you need some social media skill and willing to put in a little bit of work.

This method was perfect for me because it's something I already had knowledge in, so when I need extra cash I will be doing this for sure.

You can definitely make up to \$1,000 if you really focus, try, and give this method a shot.
