Thread: [Need logo and banner \[provided examples\]](#)

-888- - June 23, 2017, 12:17 am

Can I get a logo with the name of "LEYKE" with a black background and want the name to be in light green. I do also want the logo to be 1080x1080. I will provide images so you can get the idea what you will make. With the banner can I get my name again "LEYKE" in light green and a little pop to it like a little glow flowing from the light green lettering if that's possible. Underneath my name can you have " ROCKET LEAGUE PLAYER". This will be much appreciated! I need this to start a little branding for myself as a semi pro player :(Just click on the words "Logo, Banner and provided image" to see the images)

[Banner:](#)

If you cannot edit this banner then I will provide an image for you to edit just make it the same concept as that and make the lettering big to make it stand out in the picture.
