Thread: [My CPA Journey \[No Investment/Investment\]](#)

Cannaboid - June 23, 2017, 2:06 am

Hello all,

[23/06/17]

Today I'm going to start CPA and I've set up accounts for OGAds, YTMonster and SEOClerk (For when I get a job next week and can make investments) and I'm going to start CPA on YouTube once I find a decent niche and gather enough YTMonster credits to run a campaign. I am open to any advice on the niche or if anyone wants to give guidance I would also be very grateful. I will update this daily with earnings.

[24/06/17]

I currently have a crappy video up as a test with around 50 likes and 100 views (will put through more) but it's had no clicks on conversions. I don't know whether the OGAds stats are just frozen at 1 click but if not then it's not looking good. I'm considering Instagram CPA so if anyone knows how to get started for free and make a few \$ a day.

Total investment: £0.00

Average daily earnings: £0.00

Total earnings: £0.00

Good luck with your journey however not having investment funds will make everything a hundred times harder.

I saw your most recent update and I would like to tell you that having only 100 views and 10 likes is not enough and you shouldn't expect yielding any good results.

As far as Instagram is concerned, I am soon starting a free online course (YouTube tutorial series) on how you can grow your Instagram and monetise it.

If you are interested, send me a PM with your Discord and e-mail so that I send you a reminder once the first video is up.

I did 10,000 HR views and 100 likes, is that enough?

No, not really. Your competitors have hundreds of thousands of views and thousands of likes.

You shouldn't rely on YouTube only. Make sure you promote your CPA landing page via other means.

Perhaps, promote your video via paid shoutouts or so?

Currently made no money but I've started Instagram CPA meaning I can potentially make some quick money to invest in better quality accounts. I can't seem to edit the post anymore meaning I'm going to have to update the thread with recent posts. Although I've had a rocky start, I feel like there will be a light at the end of the tunnel. Please stay tuned :)

I've started a new YouTube video and it's currently monetized with email submits etc on OGads. I've had one lead.

Hello!

You can do it easily by going to [Tools](#) -> [Content Locker](#) -> [Optimization Center](#) and inside there you can add or remove campaigns from "No-Show Campaigns" list.

On the campaigns page, it gives me the option to select the offers that convert on email submit. How can I put these offers on a link locker?

Only enable those offers that you'd like to display , disable all others

There's too many offers to manually go through all of them disabling/enabling.

Unfortunately, you have to go through all of them since there are different offers in different countries.

Ultimately, what I would recommend you is sort offers by country and select up to 4 very well performing offers (CR and Payout) for each country.

Will do.

Any idea on how to invest \$100 into CPA and make a decent passive income that I can scale?

Well, there are a lot of ways you can invest \$100 into CPA.

May I ask if that budget includes domain name and hosting?

Warrior14 - July 14, 2017, 11:22 pm

Try to build as many videos as you can work hard and smart etc ,
