Thread: [\[INFLUENCE\] What product do you want to see reviewed?](#)

Brought to you by:

Mr.Reviewer and I are currently the reviewers for Influence. Because we like doing what we do, we are in constant need of new products to review. However, keeping track of the market is a job on its own, we decided to create a thread where you can request your product that you want to see reviewed. We'll take all products into consideration, but money plays a role as well. If you want, you can contribute a little bit of money towards the review or the reviewers in order so they can purchase the eBook. If we do not review the product please don't request it again for another 30 days unless there is an update released. If you request your OWN product and you want us to purchase it, consider delivering the product to us for free in exchange for an honest review. Please keep the thread clear, no debates, no shitposts, only comments on each others reviews to +1 them or if you your own request. If you request a product make sure to follow the format otherwise your request will be denied.

I have I think the most expensive product but comes with one hell of a guarantee. Too bad I don't think they want to spend the time learning or attempting it seems they just want to grade it.

We've considered your eBook definitely. Although it's out of our price range.

Wires - June 25, 2017, 6:51 am

Available to review any products, services, or eBooks. Please note that this is not an opportunity for sellers to get an extra sale as there's no guarantee we will even buy your product.

Happeh - June 25, 2017, 7:18 am

Love that my name is spelt wrong in the title, haha.

We pay for all products with our own money unless the owner(s) come to us and requests a review
in return for receiving the product.

Unsure if I speak for the rest of the Influence reviewers but I certainly speak for myself when I say that's out of my price range for an eBook.

Hopefully speaking to Wolf? about this so there's a small possibility I can have something done for everyone.

Mr. Reviewer - June 25, 2017, 1:24 pm

I will just leave this over here:

Influence Reviewers are not forced in any shape or form to buy stuff. I actually am against it due to it being a free service. Reviews, in order to be made, take a time+effort+a small level of integrity and honesty.

In the end, this will be it.

And I personally, even if I had the money I wouldn't throw on a random guy that promises me the world for a merely 500\$ without having solid backup.

Space• - June 25, 2017, 1:25 pm

Correct. If you think this is an opportunity to get an extra purchase by requesting your own product, rather provide it for free instead of us buying it.
