Who will save us ?tfw moderators rarely ever get involved in deals or items being sold. cause then when idiots go scamming they get blamed for "vouching"

Moderators won't get involved with your "review." Either give it to some Ub3rs to review or you will be seen as a fraud most likely.

I paid for \$50 before he made the thread and got 'resale rights'. I won't scam you guys though. ?

Like discussed on discord. YYou didn't even try the method

grail - June 23, 2017, 11:38 pm

this method is now being released for free on another thread

/tthreaddd

Poutine - June 23, 2017, 11:39 pm

Give me a vouch copy. I'll try it tomorrow or get a friend to try it. If it's worth 25-50\$ I'll vouch and pay you

National Security Agency - June 23, 2017, 11:39 pm

If I release, it would be considered 'leaking' or is there an exception? This is all obvious stuff and it's only talking about one Gas Station and not the other 6.

But on discord he gave me resale rights, which means I can sell for \$.01 and technically it's not leaking.
