There's a really small investment and I guarantee you can make money from this if you sell the servers in the right place.

Vouch, never seen anything like this before. Good luck with selling OP.

(Jun 24, 2017 04:59 AM)Meow? Wrote: [\[CITE\]](#) Recived vouch copy, this is my review:

Method requires some investment, around \$3 or so, and a working credit card and/or paypal account.

Tbh, pretty simple method, no fancy graphics or bullshit like that.

User provides you with all the things you need (apart from small investment & credit card/paypal account).

Personally, I've never seen a method like this, is certainly isn't some public or known method.

You are 100% guaranteed to make money from servers and you will make your investment (min \$3 & \$5 for this ebook) in no time. User also suggests you how and where to sell/rent servers.

Tldr:

Originality: 10/10, I have never seen this method before

Grammar: 9/10, some minor grammar mistakes, nothing that will make ebook unreadable or anything like that

Easy of use: 9/10 OP provides you with all the info you need in order to make money from servers, you need to be complete retard in order to fail this. Again, small investment is requires but hopefully you will make that back in no time.

(Jun 27, 2017 08:18 AM)Mr. Reviewer Wrote: [\[CITE\]](#) About the product:

6!/10

("!" means it's a forced grade, in our case forced 6)

-It can be profitable but the more people will know about this and be doing it actively the harder it will become to sell and perform.

-You're going to search for more Marketplaces on your own, the ones the seller provide will not be enough and it is very popular one so the competition will be present.

-As long for the uniqueness, I have reviewed around 20 products so far and I have not seen this method before.

-Having a debit/visa card is recommended.

-You're most likely gonna need more emails. However, there are free sources you can find for

yourself.

- Provides you the sources where you can host your Minecraft server for a cheap price.

The hosting will be based on some coupons, he also provides you a place where you can buy those coupons.

- You don't need the game at all, so do not worry about that part.

- A bit of creativity will be required, nothing too hard.

About the seller:

8/10

This grade could've been higher but it doesn't have many interactions inside his thread - the thread is released quite recently, plus doesn't provide any earning proofs from his own methods.

- What he offers that's what you get. Everything to a tip.

- I would say 5\$ it's a very fair price for what the seller has to offer.

- Doesn't deceive his customers with false advertisement.

Doesn't provide proofs of earnings from his own method.

This grade reviews his way of advertising, addressing to potential customers, his behavior and his way of convincing them and the connection between him and his ebook.

Method Works Perfectly

Price Product so Cheap & Small Investment ?

(Jul 1, 2017 12:48 PM)Headwiki Wrote: [\[CITE\]](#) Just bought the ebook, and I have to say Im really satisfied with the product I got (which isn't so common on HF).

The method works and you could really get a nice return considering the small investment you put in.

Also the core of this method can be applied to other money making methods, which is a really nice bonus.

I'm interested. How much profit would I be able to yield weekly on average?

I wouldn't say weekly, I would say you could get like 20~30 in a month, with 5~15 minutes work a day, but like I said it, it isn't autopilot and a little amount of work is required. You can make a lot more if you work more. Tough, the work to do is very very easy, you don't require to play or even have minecraft to use this method.
