BEFORE YOU READ THE REVIEW Spoiler [\(Click to View\)](#)

-You must understand that the reviews I make are from my point of view.If I grade 3/10 that doesn't mean the method itself is bad, maybe for other people that method is 7, so keep this in mind when you're reading my reviews.

-My reviews will probably piss off many people and break some of their businesses ...or raise them.This means I will not debate with the sellers whether or not my reviews are accurate.Unless there is really something wrong I won't recheck my analysis.

-I review good and bad products, not only bad products as some of you may suspect.In the end, remains the decision of the reader if it's bad or good.

Personal Opinion Spoiler [\(Click to View\)](#)

Your experience may difference from mine and this is review is not final to the actual product. Although, I am trying to provide the best review as possible to ensure and maintain a clear and safe marketplace.

Tier 3/Tier 10

Most of the replies within his post consist of requesting vouch copies and OP answering them. Only two considerable reviews are posted in the thread but, are in my opinion not worthy to read anyway. Those reviewers provide ratings with "8's" "9's" and even "10's" which is unreal and in my opinion way too overrated.

Vouches such as "Vouch for X, he always has great products!" , "You can't get wrong with X!" , "I vouch for this guy he knows what he's doing!" , "I tested out this product, it works! Great Product!" are not taken into consideration. Vouches without legit-proofs are not taken into consideration. Text-proofs are not taken into consideration. This is a community and in the end people connect to each other either by friendship or a common interest they'll provide a vouch.

Tier 2/Tier 10

He provides small 'proof' of his \$700 earnings on the thread. However, it's just a small screenshot of a chart going from \$0 to \$700. These types of proof are not considered valid and legitimate. I'd like to see some sort of video proof or pictures that have value to them. I've rated this Tier 2 because he provided some sort of a proof, but not enough to raise the tier to a higher level.

Methods:

Product:

Method 1#: CPA Ewhoring How much investment does it require?

No investment required.

Description:

There is no investment required, it's recommended but doesn't take away chance of sales further.

Time:

The method takes around 30/40 minutes to set-up if you are doing it correctly and detailed. You can start at 5 minutes but it's just not worth. I'd say 40 minutes minimum in order to make it look legitimate.

Tier 2/Tier 10

When I first saw the thread I already had feelings for this method/book. The thread looks unhealthy and rushed as if it likes he rapidly wanted to publish an eBook without enhancing the look of it. Simple templated thread design with images that have nothing to do with the actual content, plain mountains. The method comes in a PDF document and was sent over Skype. Upon opening the method red bells instantly began to ring. Simple layout, every page has the same background (abstract polygon background). When I saw it had 14 pages I had a feeling the look might be bad but the inner may be good. But no, the font is set to huge so Five/Six sentence can be posted before hitting the bottom line. The content itself comes with an introduction, content page and chapters. Now for the method. The only thing it tells you is to use CPA websites and spread them on Snapchat and Ewhore sites, why you should buy a domain and manipulating the buyers. He states that you can do it the 'blackhat' way by blocking the user immediately after purchasing which is considerable as a scam.

"You could do this blackhat by blocking them as soon as you receive confirmation on them signing up"

He basically encourages you to scam them as soon as they paid/signed up on the websites. Although he does also say you can do it the legit way by promising some sort content. I think using this method is ruining the market as sugar daddy's/buyers lose trust in people that use methods like that. Not to forget that ewhoring is Illegal on its own, scamming a bad crime is as well.

About the seller:

Tier 6/Tier 10

I had a question about trafficking clients to click my links, but he comes with an answer I did not expect. He responded to me that this is more of a method to improve already existing methods. And that's true, I learned nothing from this eBook, because this is basic information that is available for free all over the freebie and ewhore section. Here is a part of the original quote from Skype:

"The ebook is more of a staple of how you can improve already well-established methods"

Other than that, the seller is nice. He answered questions fast, was generous and sent the method instantly. It was also no problem as he wanted to provide a new updated version but I said no as I was reviewing it off based on the current book. That is why I rated this Tier positive as it is about the seller, not the product.

Hey, I love Mr Reviewer and the Influence Reviewers group, and great Review as well, but I would just like to point out a few possible improvements:

- a) The title of the thread is messed up. I think it could be improved.
- b) Having the review text being "Center aligned" makes it hard to read and tacky. Especially if it is a long paragraph, my eyes have to shift left and right far too often. I honestly think left-aligning is better for your style
- c) I prefer Mr Reviewer's 3/10 rather than Tier 3 / Tier 10. Minimalism is great

Keep up the good work!! I am the biggest fan of Mr Reviewer!!

I like the colour scheme. Each reviewer can have their own personalized colour scheme. This part is a plus for me.

Thanks for the good "review" and personal feedback. I'll definitely take notes and see what I can do. I'm glad you liked MR.Reviewer's reviews so as mine. ?

Hello!

Thank you for your Vouch Review. It's always good to read both good and bad reviews of a product, and I honestly believe that your review here was honest, unbiased and a good feeler for the mistakes my current ebook holds. I will do a rewrite of the ebook and up it's standards to the best of my ability.

Thank you.

As for some of the contents of the review I'd have to comment. I dearly apologize if I come of as promoting scamming in any way as I would not want to take such a stance.

I promote the restoration/upholding of the ewhoring "community", if you will, and I'd suggest and strongly recommend everyone and all to never sell something that you do not currently own or that you are able to provide. One might say that Ewhoring in general is hypocritical with that in mind, though it's a little complicated.

On one hand, you are selling something which is not yours nor yourself.

On the other hand, you are actually delivering it.

All-in-all, thanks for the review. It made me think of better reasonings and potential rewrites! :) I'll definitely leave you a vouch copy of future products if you want them.

For a first review, I can say this is a well-done job. And the accuracy seems to be there due to the seller not harassing the reviewer.

Good stuffs. Looking forward to more of these (:
