50 FREE Test install is also Available
Why should you buy app installs

There are not so many ways to gain success in the Google Play Store. One of them is a decision to buy app downloads. For example, when the app overcomes a threshold of 10.000 downloads, it is usually considered by users as worth attention.

This PPI service/package is for both of the platform but price may varies, For IOS Installs contact on whatsAPP or skype for more info.

proof:-

Review /Rating service is also available but it depends on your install package or only on your install quantity. For example ,10,000 install the rating would be set from 3.5 to 4.2 and so on

NOTE: on demand I can deliver from 250000 to 500000 Install, it will take 3 to 6 months max time.

High quality app reviews

Additionally, I am offering a couple of personal hours when I can help you identify the best ways of your business development.

Please, be very attentive when choosing what installs package to buy!
