Thread: [Leveling up fast on steam?](#)

Sharjah - June 24, 2017, 11:50 pm

I heard u could add a bot and trade csgo keys for badges and then u craft them and u level up. Can anyone link me to a bot I could trade with? Also are there any other methods?

1:x

1 = amount of keys

x = amount of set gain from 1 key.

<http://www.enhancedsteam.com/> <-- pretty sure it has autocraft feature.

or this <https://github.com/10101000/Steam-AutoCraft>

What does the 1:x mean? Confused lol Just read that thread he linked, it explains a lot.

1:x means how many sets of cards you get per CSGO Key.

1:20 means you will get 20 sets of cards for your single key. You can use the autocraft script he mentioned to automatically craft all the badges, which ultimately, level up your Steam. I got to level 110 with like \$20-\$30 I think.

Also \$100 shipping:

Those are Steam CD-KEY meaning they're games. So, no you'll need CSGO keys to be able to trade with the bot. However, you can buy those games and run a program called [Idle Master](#) to collect the card drops but this won't give you a full set. I'd just buy CSGO CASE key and use the bot.
