Thread: [Loot from 3,000 birds nests](#)

Mr. Robot - June 25, 2017, 10:49 am

So in a couple days my GE order will be finished for 1500 mole skins and 1500 mole claws, for a total of 3,000 (cost 18m)

I'll make a video opening all the birds nests and see if we can profit from the 18m, last time I did this I made 9m profit and got really really bad loot.

So I want you guys to make some predictions about how much profit i'll make from them.

I did about half of them for only 1-2m profit plus 40 spirit seeds. (which is still decent)

Admirably - June 25, 2017, 10:50 am

30M out of 18M. That's my guess, didn't know this was that profitable tho.

Yes same, are you gonna bot it or do it manually

Yeah they sure can be, like here's some math.

Mole skins: 6,000

Mole claws: 6,000

Each birds nest you get, you get 1for1

Birds nests are around 3500gp to sell, so out of the nest you need to profit around 2500gp.

Most nests you wont, however they come close making the loss only around 1k. Then you get nests that have seeds worth 5x or even 100x the cost which make the profit.

Manually of course, it's only 3,000.

Haven't seen anyone doing this before, no idea how much you will make but very interested.

Comentix - June 25, 2017, 1:28 pm

Never knew about this, may have to give it a try myself sometime. GL once you start getting the loot!

I-I - June 25, 2017, 2:07 pm

I just did 1k of each for 2k, didn't make nearly as much as your margins :(

But I did get pretty unlucky, got a fuck ton of only nest.

Tree Hugger - June 25, 2017, 3:40 pm

Is it not more profitable to just buy birds nests and open them or to sell straight birds nests?

You can't buy birds nests with seeds in them.

Tree Hugger - June 25, 2017, 4:02 pm

Is there a buy limit to skins and claws?
