Thread: [\[Private Method\] Free, Unlimited Instagram Ads \(Promos\) | Start your own ad service!](#)

Nutsy - June 25, 2017, 12:57 pm

Hello HackForums, today I am selling a private method that a friend and I have been using a while. We have pretty much reaped the benefits of it, and it's still working stronger than ever. Sorry for not having a thread design; but, once you see the method, the last thing you'll be worrying about is a thread design.

ONLY 10 COPIES ARE AVAILABLE

What exactly is this?

It's a method to get free, unlimited Instagram ads. You know those "promoted" posts you see in the feed? You get those, for free. No catch. You can run a 10,000\$ promo campaign with this, for free.

Is it illegal/blackhat?

Nope. You'll see why.

Vouches?

Giving out ONE vouch to a highly reputable forum member.

0 VOUCH COPIES LEFT

Prices:

Since there are 10 copies, price starts at 150\$, and increases by 20\$ after every sale. Here is first sale price, to tenth sale price:

150\$ -> 170\$ -> 190\$ -> 210\$ -> 230\$ ->

250\$ -> 270\$ -> 290\$ -> 310\$ -> 330\$

sixth copy sold!

Accepting BTC, or Paypal (you pay 10% extra).

Thank you.

GU€€I - June 25, 2017, 1:00 pm

I'll take that vouch copy and provide you with a good review for this method. I also have experience with FB ads so i'll know what I'm doing.

What is required to do this method? Investments? Proxies? Etc?

IF it works for instagram ads, does that mean it works for facebook ads as well?

1. A small ONE TIME investment is required (20-50)
2. Possibly, havent tried.

sourdiesel87 - June 25, 2017, 1:38 pm

How long does it take to setup? And how long once its setup does it take for the ads to start?

Setup isn't long, really dont want to go into specifics without the method leaking

Ads start just as normal IG ads do.

sourdiesel87 - June 25, 2017, 1:47 pm

I just purchased the first copy. Will leave a review once I receive and test out the method.

Roytoy - June 25, 2017, 1:50 pm

I just got the method from OP as a review copy and here's what I have to say about it so far:

Keep in mind I will edit my post after I have practically tested the method with an Instagram account and verified that it works.

Theoretically, the method should work, I must say I thought about something very similar in the past but never actually tried it.

The pdf is very neat, well explained. It talks about the method itself in addition to some other possibly valuable information. Everything is well explained, even a dumb person can do it.

*The method does require an investment, a small one nonetheless, but theoretically you'll make it back and much more if you know what you're doing.

With this method, you could basically create campaigns that never end. So the possibilities are

endless.

I'll test it out and edit the post when I'm done. I will have to take some precautions so that I can avoid any possible damage to my already existing IG accounts so please give some time.

Nutsy - June 25, 2017, 1:52 pm

You honestly are making it as difficult as possible for potential buyers to be interested. I have the money to buy this if I wanted, but again this reply bumps me back to the fact that there is something going on which you aren't telling us.

- You chose people who were least likely to give a solid, informative vouch.
- The pricetag doesn't reflect what this method could bring in a matter of 20 mins of having it setup
- Your buyers aren't leaving any feedback. This usually indicates that it's too much effort to setup right away or it requires something which takes a lot of time.
- We don't know how much "being realistic" is. You gave us an example of a \$10,000 one, however Instagram/Facebook usually delay a promotion/adset for approval before starting it. We don't know if the systems had started showing the ads to users yet.

There's a lot of things that you need to clarify before more skeptical buyers like me purchase this method.

ShopifyExpert - June 27, 2017, 2:48 pm

Purchased this method yesterday evening but haven't got around to trying it out until today. I was a little skeptical about a method that offers "Unlimited Instagram Ads", especially at the price point OP was selling it at but ultimately decided to take the leap as I figured I would gain a lot more than what I spent if it actually turned out to be a legit method. Boy was I wrong... after attempting to use this method on multiple accounts (2 aged FB ad accounts were used as well) it seems that the method does not work for me as it did for OP. I don't think this method will be around much longer, nor do I think it is a viable way to monetize things efficiently. Gonna contact OP now and see if I can get a refund, I can provide proof I tried the method, so that should be solid enough.

Can you keep up with me, I'd like to read a vouch since I checked the thread and haven't seen one yet. I'd like to buy, but don't want to buy something like Bing Ads where it's hard to find a CC, proxy, etc.

No proxies needed etc.

It's easy to set up and no hassle. Travis \$cott requested to verify whether or not it was his method

he knew and it was he can verify it works

theDuke - June 28, 2017, 4:55 pm

OP confirmed with me that this is the method I have. I have tried it and it does work.

I have not tried the method to an extent where I can fully vouch for it. All I know is that the ad can be run. Purchase at your own risk.

This method has not worked for me and OP has completely stopped responding to me. I'm going to my 2nd trial of the method soon, if it doesn't work then I'll have to request a refund. He just keeps telling me "it works every time" and it clearly doesn't.

There isn't anything I could have done differently to make it work, the method is simple lol I'm gonna try again and will update soon.
