BEFORE YOU READ THE REVIEW

Spoiler [\(Click to View\)](#)

-You must understand that the reviews I make are from my point of view.If I grade 3/10 that doesn't mean the method itself is bad, maybe for other people that method is 7, so keep this in mind when you're reading my reviews.

-My reviews will probably piss off many people and break some of their businesses ...or raise them.This means I will not debate with the sellers whether or not my reviews are accurate. Unless there is really something wrong, I won't recheck my analysis.

-I review good and bad products, not only bad products as some of you may suspect.In the end, remains the decision of the reader if it's bad or good.

Personal OpinionSpoiler [\(Click to View\)](#)

My reviews consist of 100% personal opinion and thoughts. I am in no way affiliated with the product in any way unless stated otherwise. Your experience may difference from mine and this is review not final to the actual product. Although, I am trying to provide the best review as possible to ensure and maintain a clear and safe marketplace.

Tier 6/Tier 10

Diabolic traffic generator actually got some purchases. I've seen around 5/6 people who confirmed they bought on the thread but the buyer's count might be higher as Diabolic traffic bot is not mainly sold on Hack Forums. I've seen Two considerable reviews, and they're both positive and real. What they say is my experience as well which is good. Also shows quite a few replies with people showing interest but not actually buying it. I graded it a six because it could use some more reviews. There is a current sale going on as Mr. Burnham provided it himself stating it both in the thread as in one of his replies.

Vouches such as "Vouch for X, he always has great products!" , "You can't get wrong with X!" , "I vouch for this guy he knows what he's doing!" , "I tested out this product, it works! Great Product!" are not taken into consideration. Vouches without legit-proofs are not taken into consideration. Text-proofs are not taken into consideration. This is a community, and in the end, people connect to each other either by friendship or a common interest they'll provide a vouch.

## Proof

Tier 6/Tier 10

On his thread, he shows a video containing a webpage that shows the visitors/views live with next to the website the Diabolic traffic generator bot turned on. As the program gets started, you can start to see the counter on the website increasing and thus showing more live viewers. I consider this as actual proof because we can see without eyes that both the bot is running as well as the counter is going up while the diabolic traffic generator bot is running. It slowly builds up, so it gives a natural and non-bot looking feel to it and that's what most users want on a bot like this including me. I'd like to see a longer video though to see if the proxies stay on the website and do not get blocked out after a while because that sometimes happens on certain sites or links.

## Product set-up

### Product:

Product 1#: Diabolic Traffic Generator Bot

How much investment does it require?

No investment required other than the one-time purchase of a lifetime.

Additionally, you can purchase private proxies, but that is not required as the bot comes with proxies itself.

Time:

It took me around 10 minutes to get the generator fully working and ready to go. I saw my first Youtube views after around 30 minutes.

About the product:

Tier 7/Tier 10

Diabolic Traffic Generator Bot is perfect if you want to enhance your Search Engine Optimization or if you want to get more views on Youtube videos or Adfly links. The website it refers you too is easy. You purchase and after that, you get redirected to a CP where you can download a ZIP file that contains the program. After downloading it's to start up, the file has an ICO and the actual name of the program so you instantly begin, the only thing that restricts you further from using it is the sign-up form. After signing-up, you get to the actual program. The program itself doesn't look too good. The Diabolic traffic bot looks like a program from 2005. When you first use it it's quite confusing to use as there is text everywhere and buttons all over the place, they're placed somewhat annoying as well, but that is personal preference. The main program does it's job, you select a module, import keywords or links and it starts running when you hit the start button. I've used the program for about 4 Hours now and I have it under control now, after a while you get used to the placement of the buttons and text. I have used it on Youtube Soundcloud and google SEO so far and those all work perfectly fine, I've managed to get an extra 700 views in 1:30 hours on my Youtube video which is insane. No results on the Google SEO so far but I'm giving it time. Soundcloud provides instant result, apparently Soundcloud doesn't give a dime on proxies so I managed to boost a specific song for 3000 views so far. I rated it an 7 because the program could use a theme update and the program has some buttons weirdly placed. If those are solved it's definitely worthed an 8+, some more modules would be nice as well to see in the near future but Burnham said you can always request new modules.

Tier 8+/Tier 10

My personal experience with MR. Burnham is one of the best on this Forums. I had quite a lot of questions on his SMM panel and Traffic bot but he never answered negative or with a sip. His online time is an amazing plus as well, provides an answer almost instantly. Again, for the Diabolic copy he didn't hesitate for a second and gave me a 100% discount code. Normally, I'm not that positive on reviews, but this seller definitely proved his worthyness. I'd say that other sellers could use some of Mr Burnhams positivity. Not going too much detail, provides standard programs, but with excellent service. 8+ for Mr Burnham here.
