Social Engineer - June 28, 2017, 6:03 pm

Form (signature/avatar): Logo

Size of the piece: The higher the resolution the better.

Color preferences: Nothing specific, however make it in a way that if it were to be changed to a different colour there wouldn't be major changes to make.

Other preferences or information (texts/effects/fonts): The brand is called "Gang Clothing" - The logo is based around the concept of "GXNG" - Whether you want to use just straight text or maybe create a little graphic to go with it I'll leave to you as you're the creative. Just make it something you'd be happy to have on something you're wearing.

Hello. If you still offer this service, i would kindly want one signature and avatar done. Thanks!

Size of the piece: avatar - your decision, signature - 500x200

Color preferences: Yellow with a Blue Mixup, see below.

Other preferences or information (texts/effects/fonts): i am a big dragon ball fan, could you do something with my name that the writing(dbzsuper101) would transition from normal to yellow and then finally light blue form? For the signature. Pick a font you think would look better and also something with ghost effect would look badass i think. As for the avatar, the writing DBZ101, and the same color styles as above.

Once again thanks for your service!
