Thread: [Why you shouldn't use 37x's wiper](#)

DontWorryBeHappy - June 26, 2017, 2:12 pm

Just a tip to all users, many will laugh while others give an, "Oh shit," but this is why you shouldn't run a 37x's free space wipe unless you're doing some REALLY REALLY BH stuff and think you are actually being tracked/followed.

Keep in mind, this started at 5day 18hours 5minutes

<https://i.gyazo.com/e986f727dc9423d4ad8459b699a1d8d1.mp4>

I will do 3x or 7x next time lol.

Oh, and I still have to do this with my 3TB external when this is done
???

DataExhauster - June 26, 2017, 3:54 pm

Can I get a link to the download for this?

DontWorryBeHappy - June 26, 2017, 5:12 pm

link to download what? that supposed to be a troll?

DataExhauster - June 26, 2017, 9:01 pm

Dont worry bro just be happy

Faith Connors - June 26, 2017, 9:40 pm

u should only need dd and write over the disk with null bytes, would be much faster.
