Thread: [Removing asterisk \(*\) from forms](#)

GreenTea - June 27, 2017, 12:37 pm

Is there a way I can remove asterisk symbol from forms when I choose to require the form field? I am actually using squarespace and I did put up this question on their help forums too, but no one answered the question.

Not quite sure what information should I give, but this is kinda how a field looks like

```
Code <div id="text-yui_3_17_2_1_1498319244411_39603" class="form-item field text required">
    <label class="title" for="text-yui_3_17_2_1_1498319244411_39603-field">Name <span
class="required">*</span></label>

    <input class="field-element text" type="text"
id="text-yui_3_17_2_1_1498319244411_39603-field" />
</div>
```

Add in the CSS

```
Code .required{
display: none;
}
```

(Jun 27, 2017 12:38 PM)Rushax Wrote: [\[CITE\]](#) Add in the CSS

```
Code .required{
display: none;
}
```

Apparently, that hides all the fields except the ones that are not required.

(Jun 27, 2017 12:41 PM)Orka Wrote: [\[CITE\]](#) It is not possible to edit out the span itself with squarespace?

I wouldn't know how to do that. Not quite sure if its possible or not.

(Jun 27, 2017 12:55 PM)Orka Wrote: [\[CITE\]](#) Try narrowing the selector:

```
Code label.title > span.required {
display: none;
}
```

Yup, Orka's nailed it.

```
Code label.title > span.required {
display: none;
}
```

Thanks that did work, except on this one.

Code <div id="checkbox-yui_3_17_2_1_1498319244411_42463" class="form-item field checkbox required">

<div class="title" for="checkbox-yui_3_17_2_1_1498319244411_42463-field"> *</div>

EDIT: Never mind, got that one too, this is what I used, apparently this worked only with commas and not the right arrow.

```
Code div.title, label.title, span.required {
    display: none;
}
```

Rushax - June 27, 2017, 1:30 pm

It should really be:

```
Code div.title span.required, label.title, span.required {
    display: none;
}
```

To make sure you hide just the span after the title class instead of hiding the whole div class="title"
