Thread: [\[Influence\] Review Service](#)

Mr. Reviewer - June 27, 2017, 1:48 pm

[Click Here To PM Me](#)

For who is this service?-People who want more exposure of their product.I can promise you'll have more engagement in your sales thread with this.

-People who are very confident in their product.Who want a proper review to be made that includes every possible detail inside your sales thread and outside it!

And the most important, it is free! ?

What do we do? •Unbiased review of the product.

•We review from a neutral perspective.

•Everything will be analyzed on your thread, from vouches to pictures and methods.

How does it work?

•You can choose one of the Reviewers to review your product.

•You ONLY and the REVIEWER will have access to the product.

•You can choose who you want to be the Reviewer. BUT - it is not definitive.

If I feel the pick is questionable(for any reason) I will assign a different reviewer, just to make sure the corruption levels are low.

How to apply?

PM ME or POST HERE, the next things:

•Your sales thread with link.

•Who you want to review your product?

Members:

[The Conjuror](#)

[Mr. Reviewer](#)

The members have been carefully picked according to their persona and behavior around the forum and I can safely say if you trust me with your product you should trust these guys too!We've tried to keep people with disputes and uncommon behavior outside this group to keep a level of corruption as low as possible!

TOS: RULES

Before you do anything you must PM ME about who you want to review your stuff. And AFTER it's been confirmed and I gave you the YES, you will send the product to the assigned reviewer.

You must accept the fact that the Review will probably make your business shake or mutilate your persona. Make your business raise..or break it. We will be unbiased and as neutral as possible.

If you decide to hand us the product it doesn't mean we are buddies and most definitely it doesn't mean I'll make a positive reference.

The process will be: You give the product to the assigned Reviewer.

One of us will make a review.

Simple as that.

Once the Review is released, you are forbidden to contact any of us about the state of the Review, if you don't like the writing, or we said 3 instead of 2 fake-vouchers, or we put you in a bad light: We will simply ignore your messages. Unless there is something definitely wrong we won't recheck our analysis.

Everything will be done ONLY through PMS, NOT SKYPE, NOT EMAIL. Do we need your help? We'll contact you through PMS.

The download link will be set on <http://www.mediafire.com> or <http://www.mega.nz>, you may want to make an account. - YOU DON'T SEND US TO ONE OF YOUR WEBSITES TO DOWNLOAD YOUR PRODUCT.

If there is anything else I have to know about your method that your PDF doesn't cover, make a text as detailed as possible and send a pm.

Our Reviews can take anywhere from 1 day to 3 weeks. Depending on your methods and our free-time.

Once you send the product to the assigned reviewer, you'll make a post here saying "I have sent my product for reviewing to X" or something between these lines. Very important. We don't want anyone to misunderstand a review and say it's been given under the hand for positive reference and such.

They can decide if they want to review someone's product, no one is forced, in the end, this is a free service.And you've sent Wires the product before he even accepted.

We welcome people to make their own review services, it hopefully means more quality within the

marketplace and this is what our main goal is - quality. Saying that, if we don't feel we can provide the level of quality through our reviews we reserve the rights to deny a request. It wouldn't be fair to not only yourself but the public reading. Hopefully, this gives more context for yourself.

In other news, I'm now online and focusing on my reviews. :)

I've talked with Happeh, he will be the one reviewing your Ebook.

Current update.

From now on, inside the Review, there will be a UID with the seller. This is due to some people changing thier name and name of the product completely. In case someone searches them the Review should pop up. This will be an easier way for people to track them.
