Thread: [Get_IP_MAC_Funny_Script.bat by Hackoo](#)

Hackoo - June 28, 2017, 7:17 am

Hi ?

Someone ask me this :

Quote:Can you make me a batch file which creates a new .vbs file on the desktop that can not be deleted? In the vbs file that gets created on to the desktop, it will have this inside it.

Description and explanation of this new script :This an hybrid script (Batch/Vbscript) ==> means that the batch file can create a vbscript file and execute it !

The vbscript file when it will execute; it show you the LAN IP ,WAN IP and MAC address in a MsgBox !

The funny thing in this script is to create a folder on your desktop named Hackoo where the vbscript is saved inside with hidden mode and change its icon in a (Padlock icon) and it's hard for a normal user to delete it by the simple way !

Here is the source code of Get_IP_MAC_Funny_Script.bat

Get_IP_MAC_Funny_Script.bat [\(Click to View\)](#)

Very creative hackoo! Great usage of findstr and ping ^-^

I had one question!!!

is this

Code @For /f %%b in ('echo %%a') do (
different than this?

Code @For /f %%b in ("%%a") do (

P.s your signature is flattering!

Code @For /f %%b in ("%%a") do (

P.s your signature is flattering!Thank you for the testing bro ? ?

It give me the same result ?

?CARUs L?VE?™ - June 29, 2017, 8:27 pm

My reasoning is to avoid the echo command. You see 'echo %%a' you parse the output of echo, but using "%%a" avoids that because you're parsing the value instead.

Leroy Jethro Gibbs - June 29, 2017, 8:34 pm

Fuckkkk. How do i delete this shit lmao.

Hackoo - June 29, 2017, 9:03 pm

(Jun 29, 2017 08:34 PM)Leroy Jethro Gibbs Wrote: [\[CITE\]](#) Fuckkkk. How do i delete this shit lmao. Like i said before it is not easy to delete it by the simple way ! ?

This what i called the funny part of the script ?

This can be deleted easily if you look carefully inside the code, you will find which command can be used there ! ?

PM me if you still not found any solution for it ?

Hi ?

I just modified this script for simple use and i get rid for the funny stuff ?

PHP Code

```
<?php
@echo off
Title Get (LAN ,Public) (IP) and MAC Addresses by Hackoo 2017
mode con cols=80 lines=5 & Color 9E
echo( & echo(
echo  Please Wait a While ... Searching for (LAN ,Public)(IP) and MAC addresses ...
Set "LogFile=%~dpn0.txt"
@for /f "delims=[] tokens=2" %%a in ('ping -4 -n 1 %ComputerName% ^| findstr ['] do (
    set "LAN_IP=%%a"
)

for /f "tokens=3 delims==" " %%A in (
    'nslookup -debug myip.opendns.com. resolver1.opendns.com 2^>NUL^|find "internet address"'
) Do set ExtIP=%%A

@For /f %%a in ('getmac /NH /FO Table') do (
    @For /f %%b in ("%%a") do (
        If /I NOT "%%b"=="N/A" (
            Set "MY_MAC=%%b"
        )
    )
)

Cls
echo(
echo      My Private LAN IP      : %LAN_IP%
echo      My External Public IP  : %ExtIP%
echo      MAC Address           : %MY_MAC%

(
echo My Private LAN IP      : %LAN_IP%
echo My External Public IP  : %ExtIP%
```

echo MAC Address : %MY_MAC%

)>"%LogFile%"

Timeout /T 5 /NoBreak>nul

Start "" "%LogFile%"

Enjoy it ? ?

OTF RENJI - *February 18, 2018, 1:29 pm*

i cant remove the folder that was download on my desktop
