I've barely played this game because its just doesn't work well with mouse and keyboard. If I had a touchscreen to play it on I'd find it far more enjoyable. I'm [Articuno](#).

What kind of tablet did you use.

I got one too but I prefer to use mouse now to practice my coord for league.

Used to play before I raged at a song, stabbed my tablet with the pen and threw it across the room. Haven't seen the pen since. I used the official osu! tablet too.

Between guitar, lifting, and my laborious job I had to give up on osu! because I swear I was on my way to carpal tunnel. I feel like I was pretty decent before I quit.
