Thread: [Survey for dissertation](#)

Social Engineer - June 29, 2017, 4:45 am

One of my friends is struggling to get survey completion for her dissertation, she needs 40+ by Sunday, I think we're currently on the ~15 mark most I've which I'm obtained through friends & family etc.

I don't want to post the link here since I don't want it getting spammed as this is very important for her, to qualify you need to be working or have had a job in the past that you can answer the survey questions based off.

If you can help complete this survey please let me know and I'll send you the link. Thank you! ?

Literally a few minutes. It isn't too long and you're literally just clicking on options and not having to type anything (apart from your name).

How long does the survey take? Also I only have had one job which was McDonalds last summer, would I still be qualified?

If you want, I can help. Right now having a lot of free time.

Send me the link. Also it would be cool if you're willing to leave a positive google review in return. Either way I'll do it.
