Hi I Made A Guide For My Rat.The Usage Is So Simple But I Decided To Make A Guide.Lets Start

Main Thread: <https://hackforums.net/showthread.php?tid=5658512>

Register And Login

Firstly Click Register Tab To Sign Up Than Sign In To Access The Rat

Than Press Login Button On The Top And Sign In

Code Menu

Just Click "Or Continue With A Free Account" Text

Making The Virus

Click Builder Tab In The Menu And Download The Builder(It Is Only Downloadable Thing In My Rat)Open Builder.rar Than run builder.exe(Dont Click Or Delete notready.exe)Enter Your Username And Click Build Button.A File Will Appear In That Directory Called Server.exe. And Your Virus Is Ready.Thats It.

Controlling Your Slaves

Surveillance Is Not Ready Yet.

Good Luck

Thanks for the tutorial. I've seen some people starting to make RAT's without download. Just make sure you use an Off-Shore Webhost OP.
