Mr. Robot - June 30, 2017, 9:38 am

On a warm summer's eve
On red train bound for nowhere
I met up with the gambler
We were both too tired to sleep
So we took turns a-starin'
At the bustabit casino,
The boredom overtook us,
And he began to speak
He said, "Son, I've made a life
Out of readin' random patterns
Knowin' when the win streaks were
By the way they coded the game,
So if you don't mind me sayin'
I can see you're out of all your bits,
For a share of your bitcoin,
I'll give you some advice"
So sent him all my money,
And he bet it all on one game,
He injected some more heroin,
And asked me for some more,
And the night got deathly quiet
And his faced lost all expression
He said, "If you're gonna gamble bustabit, boy
You gotta learn to lose it right

You've got to know when to all in,
Know when to fold 'em
Know when you should play,
But you should never run,
You never count your money
When you're sittin' at the computer,
There'll be time enough for countin'
When your balance is gone,

Every gambler knows
That the secret to survivin'

Is knowin' when to beg for more,
And knowin' how to be cheep,
'Cause every games a winner
And every game's a loser
And the best that you can hope for is to die
in your sleep.
And when he finished speakin'
He tabbed back to the bustabit game,
Took out his bible to read,
And faded off to sleep
And somewhere in the darkness
The gambler he broke even
But in his final words
I found an ace that I could keep

You've got to know when to all in,
Know when to fold 'em
Know when you should play
But you should never run,
You never count your money
When you're sittin' at the computer,
There'll be time enough for countin'
When your balance is gone,

You've got to know when to all in, (when to all in)
Know when to fold 'em (know when to fold 'em)
Know when you should play
But you should never run,
You never count your money
When you're sittin' at the computer,
There'll be time enough for countin'
When your balance is gone,

You've got to know when to all in,
Know when to fold 'em
Know when you should play

Heard motherfuckers talk, seen me drop

If I ain't got an excuse I'ma pick up a one

Some more to the rap.

Now, this is a story all about how

Bustabit got me flipped-turned upside down

And I'd like to take a minute

To sit right there

I'll tell you how I found patterns in a game that was provably fair

On Hackforums dot net born and raised

In bragging rights was where I spent most of my days

Chillin' out maxin' out my cards' it's cool

And all shootin some heroin outside of my kids school

When a couple of guys who were up to no good

Started making trouble in my neighborhood

I got one little win and my mom got scared
She said, "You better be sellin' your method on there."

I got that eBook bumped and vouched day after day
But the method was shit and no one would pay
Tried it myself and emptied my wallets.
So I went to my thread and said, "The site's on a bad run, I'm gonna close it."

My eyes are tricking me..Don't know what's funnier - Black Shadow telling someone to stop or the other guy saying he is a 'trained professional' on Bustabit. Both as bad as eachother.

Agreed.

What got me was him asking me to sell an e-book for him. I know he got multis on here, if he's reading this.

BlackShadow, get some help pal.

I am happy we're both still around to see the downfall of Black Shadow.

If only our dear friend Dylanups could see that his effort was not made in vain:

Dylan is one of my oldest internet friends. He knows. It's just too bad he's not here to witness it

himself.

The post he made that got him banned was motivated by him hearing me bitching about BS all the time on TeamSpeak. He blames me constantly for his account closure.

Was he scamming with him? if not that was a bit unfair to close his account just for giving a rep out.

People needed to be given an example what happens when you give positive rep to a user who is obviously a multi.

There were many other factors taken into account that, in my opinion, make it fair. That said, Omni's choice doesn't have to be fair or justified.

How do you detect a multi account though if everything matches up and they already have positive rep, it would be hard to detect.

Somebody once told me the gambling's is gonna roll me
I ain't the sharpest tool in the shed
I was looking kind of dumb with my random and it's pattern
In the shape of an "L" on his script

Well, the bits start coming and they don't stop coming
Forgot to stop and I hit the ground running
Didn't make sense not to bet for a living
Bustabit's rich and you get nothing

So much to do, so much to see
So what's wrong with taking my lessons?
You'll never know if you don't win
You'll be in the top if you don't begin

[Chorus: The Bustabit God]
Hey, now, you're a bustabit, get your bits on, go play
Hey, now, you're a god, get the show on, get negative
It's random but there's a pattern
Only my bank account will shatter

My acc's a cool place it only gets colder
You're bundled up now but just wait till you get older
But the script men beg to differ
Judging by the graph in the BaB profile picture

The bits we bet are getting pretty low
The owners getting rich so you might as well stop
My world's on bustabit. How about yours?
That's the way I like it and I'll never get bored.

An user once asked could I spare some change for bits
I need to get myself away from this place
I said yep, what a concept
I could use a little bits myself
And we could all use a little luck

Well, the bits start coming and they don't stop coming
Forgot to stop and I hit the ground running it
Didn't make sense not to bet for a living
Bustabit gets rich and you get nothing

EDIT: I'm going to get my friend sing this and he sucks at it for \$3 BTC
