UPDATE 08/18/17:

The accounts I exposed are now all closed, thank you.

[5 Accounts Closed - Aftermath](#)

Keep your eyes open, deal with caution. He still has other accounts.

EDIT: He has changed the domain to uprofit.org, it's the same site like before, the domain is now

different.

<https://hackforums.net/showthread.php?tid=5697487>

This guy owns many impersonation sites to scam people with.

UPDATE 08/17/17:

The user [exploid2017](#) is claiming that he owns the site silentwordexploit.com ([See proof here](#)) His signature leads to the site and you can check for his threads yourself.

If you press "Buy now" on the site it leads to the [rocketr page](#). Once again, the rocketr page will have the same skype moujous72 which smokierobot and Mr. Miner used.

Also, if you log out and check the ads on this site, you can see that the same signature is being advertised on HF. I talked to him on skype and he denied that he has a HF account.

[exploid2017](#) has also given positive reputation to [Mr. Miner](#).
<https://hackforums.net/reputation.php?uid=3615143>

The other user who has given reputation to Mr. Miner after the last exposure is [justrdp](#). He has posted in many several threads about silentwordexploit. Most of the threads have been closed or the accounts of the seller has been closed as seen here:

Look here to check justrdp's post history ([Click here for a picture](#))

As you can see the threads he has posted to are all about spartan exploit = silentwordexploit. It's the same thing.

<https://hackforums.net/showthread.php?tid=5643569> - Posted to smokierobot's thread about spartan crypter. - Leads to the same skype and site.

<https://hackforums.net/showthread.php?tid=5639198&pid=55427654#pid55427654> - Posted to milandvb007's thread whose account is now closed. - Leads to same skype and site.

He has also posted to other's members threads about silent exploits and keyloggers. Not sure if there's a connection.

The Youtube channel which has the videos from the site and other threads have been uploaded here to this channel: <https://www.youtube.com/channel/UCF8P2LJvcEFcofPcuOM3KOQ> - Some videos uploaded to another thread have also been uploaded in to this channel. This guy is obviously bad at hiding his steps.

Hello.

I just came by something interesting. Apparently the recently joined user [Mr. Miner](#) is selling [Diamond FOX Botnet Crystal Version Seutp + Hosting](#) for \$480 BTC.

I clicked the [rocketr link](#) and found something interesting.

The accounts name is [SpartanExploit](#) which also is selling the product the user [smokierobot](#) used to scam with.

So, I went to smokierobot's old [sales thread](#) and clicked for the [sales link](#). The account is different but the product description and image is the same on the account which is selling [Mr. Miners product](#).

The skype in both rocketr links is moujous72, I then proceeded to search it on HF and I found it connected to [two deal disputes about Uchiha and smokierobot](#)

[smokierobot](#) scammed and infected various users. Mr. Miner is about to do the same.

Do not deal with these users and always do some simple research before dealing with them.

Nasyr - June 30, 2017, 8:53 am

Good find buddy and a good expose of a potential thread within the community.

If the user has a past of infecting members with the same means contact staff as is a direct violation of the rules.

M?xim - June 30, 2017, 8:53 am

Mr. Miner seems to definitely be smokierobot. No doubt.

Nice catch.

Fortunate - June 30, 2017, 9:07 am

I'm currently talking to the scammer on skype.

He's flexing how he has \$12.5k and more accounts in this forum.

He also can speak 4 languages. Can you believe that?

Maybe he should take those \$12.5k and get some English lessons.

I think it's hilarious that he wastes his money thinking a sales tag will get him sales on each of his threads lmao, check his earlier posts where he gets owned for selling even more free shit it's a good laugh, he edited them to say "Delete this post PLS". What a scumbag. ?

Seems like that spartanexploit is being advertised on HF (if you log out) and the rocketr link has the skype moujous72 which is smokierobots skype.

If you go to silentwordexploit.com and click buy now, you will see the same skype in the rocketr description.

The accounts of these users have been closed.

It's not hacked they are just trying to scam with uprofits name, either way his back.

Uprofit's domain is uprofit.online, I don't know anything about the product though.

But uprofit.org is the same site as silentwordbuilder. It's the same design.

The person who made that topic on that website has the same username as the RocketR link hosted on uProfit. I guess uProfit was a scam site to start out with and they're using it to host malware now. Looks like they've also used it to sell russian sex toys in the past too lmao.
