Thread: [Connectology Logo Concept || WIP](#)

Saul Bass - June 30, 2017, 11:19 am

Working on a logo concept based around connecting technology.

The idea behind the logo image is the use of solder points and connecting them. Still a WIP but I hope you see the idea behind the design.

It's also a monogram of C & O for Connect Ology, faint but it is there.

AvessoVision - June 30, 2017, 11:30 am

Where have I seen this type of logo before? I've always loved simplistic logos with a bold yet subtle meaning behind them.

And I can say I am utterly bad at making logos so I'll pass you the ball on these.
You are without a doubt in your prime at this trade.

Nachfolger - June 30, 2017, 11:34 am

Logo looks nice. Not sure that the C O would be noticed without pointing it out.

Saul Bass - June 30, 2017, 11:37 am

It's like an abstract monogram lol

It was a tricky piece to make actually. Still refining the design, especially the font.

However, I will have a lot of fun animating this.

Oh that sounds interesting. Make sure to post the animated version.

(side note: Are you joining this GoTM? 7 days left.)

What's the theme for GoTM?

M?xim - June 30, 2017, 11:42 am

Thread designs; you can choose between hosting and a r.a.t sales thread.

<https://hackforums.net/showthread.php?tid=5641654>

Please do give it a look, there's time left.
