Thread: [Simple MOVING EFFECT. \[ANIMATION FOR BEGGINERS TUT\]](#)

Networkmancer - March 7, 2009, 9:45 pm

Because of receiving to many PM's I decided to make my animation tutorial part 2. IT took me how many hours to finish this tut.

BEFORE PROCEEDING:

Spoiler ([Click to View](#)) I use 50 frame on the last tween to make the shark and the UFO slow so that you can read its text. ?

BTW, to make the Comics thing in their head, Go to Custom Shape or Press "U". Find it their and join it on the sharks/UFO group.
