Thread: [>>UNLIMITED FREE INSTAGRAM ADS \(SPONSORED POSTS\)<< REFUNDS!!](#)

theDuke - June 30, 2017, 5:09 pm

This will be very limited.

I am selling a maximum of 5-6 copies of this including 1 vouch copy.
Please post below if you are interested in a vouch copy.

Price per copy will be \$50 BTC.

Have you seen those sponsored posts on Instagram? Well now you can have one of your own for FREE!

How Instagram Ads Work

Firstly, you will need to change your Instagram to a business account.
Then, you will need to connect a Facebook page (don't worry, you can create on one the spot.)
After that, you can set your own budget (ANY BUDGET WILL WORK WITH THIS METHOD!). For example, a \$10,000 budget, which you can use with this method, will generate you impressions (views, website clicks etc) from 800k-1m people, depending on your niche.

How Does My Method Work?

A workaround that grants you free ad placement. You can only do this once per FaceBook account, so you can always rinse and repeat.

What do I need to do this method?

Small investment MAY be required (\$20~).

Instagram account.

FaceBook account.

Why Am I Selling This?

Selling this in limited copies because I need some BTC/PP atm. Polo is being dumb and holding most of my funds.

ToC

I am not responsible for what you do with this method.

I am not responsible if anything happens to your FaceBook or Instagram Account.

Refunds will be granted if method did not work you. Must provide proof.

I have recieved the method and can 100% confirm it works.

The sources OP provides are all 100%. The investment is worth it!

You had this travis guy vouch for you as well for this exact same method that you were selling.

Everyone is pretty much saying it doesn't work except for you and travis. You get billed in different payment thresholds and doesn't work as you say it does. You should help out your customers instead of closing the thread and leaving everyone in the dark.

Contact me via PM bro maybe we can work something out.

I offering a 100% refund if this doesn't work for you. Your funds will not be spent and will be held in a walllet until you are satisfied of your purchase. Hell, I'll even go first to some of you.

You create the ad on Instagram, but it goes through Facebook ad manager.

Yes! It works on a new Facebook account. All you need is an email to get registered.

This and the other thread is only full of Vendetta's post trying to defend himself lol.

Yup. They advertise it as FREE but it is NOT. You need to spend at least \$25 each time you do it. It also will NOT let you spend \$10,000 or anything even remotely close to that. Facebook/IG have billing thresholds for new accounts. \$25. \$50. \$100. \$200. It will always try to bill in those increments. You will NOT be able to spend \$10,000 lol. You'll get a 'free' \$50 spend on \$25.
