it's not in the size of a thread design , more like a PSD website template

Yeah its really hughe size, what I recommend for the ones that want it just open it on Photoshop & export it as .png with 1265 x 2330 or something like that.

If its too much trouble I'll upload it again with new resolutions.

Thanks!

Looks amazing, going to be using this for my next service thread, I am not really good with graphics creation itself yet.

check the preview of Week #2: "City Night" it's the exact same design, posted in January 2015

it's also literally the first thing that comes up when you google "free thread design"

It doesnt say in any part of this thread that was made by me. ? During this week I'll release thread designs made by me & you'll see the difference bro. Also I contacted there before publishing anything to make sure I was able to do it.

Have a nice day! ??

This is amazing but could use a resize.

KyFu - August 5, 2017, 4:16 am

This is one of the OLDEST thread designs out there..

Definitely didn't make this yourself. Just found it and figured you'd "contribute" to the forums. Not trying to be a dick, just being real.
