Thread: [\[FREE\] 200 Free Instagram Followers](#)

As the title states, 200 free Instagram followers will be given to whoever posts.

Requirements: Upgraded to either UB3R/L33T

Must have positive reputation

I will add that the followers are mostly russian accounts so if you're running an account you don't want to look suspicious, I'd advise you not to post ?

That's my bad, I worded it a bit shitty. Meant for it to read out that members should have a positive reputation before asking for followers (higher than 0).

Are these followers active?
