Thread: [This dumb ass bitch fucked me](#)

Omega - July 5, 2017, 1:11 am

Firstly I would like to introduce myself because I don't give a fuck about grammar time to time so yea fuck w it.

Okay so I met this bitch on Facebook a while ago n than started snapchatting each other she sent me pic worthy shit if you know what I mean. Anyways, I never even told her my age because I'm barely turning 21 and I eventually found out she was like 32 or something like that lmao. I honestly was just tryna smash ya kno fuck it she had a big ass and I was tryna fuck w it. Anyways again, months went by I kinda forget about her cause I'm a dog ass nigga ya feel me. So for the fourth I did absolutely shit besides eat and drink like 2 beers because me and my friend were dry as fuck no hoes was trying to come over lol. My friend passed out so I started hitting up some joints and I ended up hitting up that lady i was trying to bone before which i had never met and she had me come over. And as soon as I got to her house we literally got right to it. But this stupid ass bitch started sucking on my fucking neck while I'm trying to push her away literally. I had to wrestle this fucking bitches head seriously. Now I got two little fucking marks on my neck and I like this bitch at work and she likes me and i can't fucking go to work like this. Any fast techniques to remove hickeys I would greatly appreciate it. Oh and my fucking condom ripped while I was boneing this bitch and I don't know how I feel about it honestly. I pulled out in time but still ya know what the fuck. Help.

Bruh this was just a great read lmao I love you so much

for removing hickey's nothing much you can really do but wear makeup but shit nigga are you gay? I think so try to ice your neck and shit but I think she'll see em anyway.

Aficionado - July 5, 2017, 1:14 am

Try icing it or using toothpaste or some shit.

I heard that a cold spoon also works.

XzoRcisT - July 5, 2017, 1:20 am

Rub it hard with a silver spoon (back & forth) until the skin is red, I know it sounds weird. Some girl put me on to it, after rubbing the hickey for like 10 mins shit was gone lol

Good luck fam!

lol you fucked up big, if you cant handle drinking, then u shouldn't drink too much, congratz, I didn't know people could actually get drunk from joints and beers , I do truly pity some people
btw use aloe vera so it heals faster and do some make up to hide it temporarily and try to avoid her for few days

Here's what I did. Hurts like a bitch, but it works:

- 1) Get an ice pack and hold it on the hickey(s) for about 1-2 minutes
- 2) Get a flat surface cap e.g. chap stick cap and start rubbing on it (push hard) for about 30-45 seconds
- 3) After you rub it, get a makeup brush (or any other soft brush) and just brush the hickey(s) (it makes the pain go away faster)
- 4) Repeat steps

Works great

I honestly don't see how rubbing on a bruise (because that's what it is) would help reducing it.
I'd rather think it would get worse
